

## **National Doctor's Day**

**Event-** National Doctor's Day

**Date-** 27 June 2021, Sunday

**Venue-** Online Live Session

**Conducted by-** Class I to V

*Only a 'Doctor' can teach how to love life*

Doctors are considered next to God. Their role in our life is irreplaceable. Every life matters to them. Each year Doctor's Day is celebrated on 1 July in India. It is celebrated to honor the legendary doctor, the Second Chief Minister of West Bengal and the Bharat Ratna Awardee, Dr Bidhan Chandra Roy for his contribution in medicine.

The students of the Primary Wing, ITL Public School celebrated the day by welcoming the Doctor Guests to the Online Session. They sang melodious songs, danced and enacted a skit depicting the role of doctors by which they express gratitude to the God's presence on the earth.

The students express their love to the doctors for their constant support during this difficult time. The young Itleens spoke about the Doctor's role in our lives. They prayed for the wellbeing of all the doctors as they helps us to remain hale, healthy and at peace during our illness. Young Itleens presented self-made card photos to wish all the doctors present in the virtual session. Ms Reetu Bhatia, a teacher of ITL recited a self-composed poem to express gratitude to the front line warriors.

Some Doctor Parents were also invited to help and guide the little Itleens on how to remain safe, positive and secure during the present scenario. Doctor Parents also shared their valuable experiences on the importance of valuing life and staying health during the current Pandemic.

The session ended with a note '*Together we grow stronger*'. Helping each other and serving our family members as our Doctor's do.
