

## WORLD NATURE CONSERVATION DAY

**Date: July 28, 2021**

***“Conservation means the wise use of the Earth and its resources for the lasting good of humanity”***

**ITL PUBLIC SCHOOL** observed **“World Nature Conservation Day”** on **July 28** to raise awareness of the role played by the nature in human lives.

The theme for 2021 is **"Forests and Livelihoods: Sustaining People and Planet"** as a way to highlight the central role of forests, forest species and ecosystems services in sustaining the livelihoods of millions of people globally, and particularly of indigenous and local communities with historic ties to forested and forest-adjacent areas. This aligns with UN Sustainable Development Goals 1, 12, 13 and 15, and their wide-ranging commitments on alleviating poverty, ensuring sustainable use of resources, and on conserving life on land.

The ITLeens enthusiastically showcased a plethora of activities like **Talks, Poster Making, creating Window Sill Garden** by repurposing old ice-cream buckets, **Reusing Waste R.O. Water** for washing, cleaning and watering plants, **Switching Off** electrical devices when not in use, **Planting Trees** at community level, **Taking Care of Stray Animals etc.** that each one of us can pursue at home and around for conservation of energy, water, flora and fauna on Mother Earth. A video was compiled of the activities displayed by the children.

As it is rightly said - ***“Progress is impossible without change. And those who cannot change their minds, cannot change anything”***, we all must pledge to conserve our nature by adopting sustainable practices in our daily lives.
