

ITL PUBLIC SCHOOL organizes the inaugural ceremony of **The Bridge Programme, a Skill Hub Initiative by CBSE**

Name of the event: Inaugural ceremony of **The Bridge Programme, a Skill Hub Initiative by CBSE**

Date: 2 April, 2022

Venue: School Auditorium

Participants: Teachers and Students of the neighbourhood Community

“The more we give importance to skill development, the more competent will be our youth.”

ITL PUBLIC SCHOOL organized the inaugural ceremony of one of its most aspirational programs **The Bridge Programme, a Skill Hub Initiative by CBSE** under the **Pradhan Mantri Kaushal Vikas Yojana** on 2 April, 2022 in the School Auditorium. **RP Singh (Joint Secretary, Skill Education)** and **Mr. Shivesh (Co- Founder, Think start up and Programme director, Youth Sanjeeva Ideathon)** graced the occasion as the Resource Persons. The School Principal **Dr Sudha Acharya** felicitated the guests with a planter as a token of gratitude.

The BRIDGE Programme, organized in in collaboration with **Bosch** aims at offering Skill development courses as part of the **Community Outreach Programme** seeking to empower the young learners from the underprivileged section of the society. They will be trained in different aspects of skill education such as customer service, computer skills and communication skills whereby after the completion of the course the students will be adept as Front Office Associates and IT Helpdesk Associate. In the inaugural ceremony the young students from the neighbourhood community were invited to involve them in the programme.

ITL Public School firmly believes that skill education plays a pivotal role in enhancing the employability skills among youth and also develops a competent skilled workforce for multiple job roles available in the economy. Through the medium of **Skill Hub Initiative** under the **PMKVY**, CBSE aims to provide vocational training to the school dropouts and out of education candidates and ITL is committed to this noble task of offering Bridge Foundation Skill course which will lead to Development and Growth through Employability Enhancement to CBSE schools. It will play a pivotal role here for higher secondary, pre-university and college students in enhancing their soft, interpersonal and employability skills as well as developing a competent skilled workforce for various job roles available in the economy

The resource persons explained how schools are the pillars of strength of a wholesome community The role of the school is not merely confined within its boundaries, rather it transcends and transforms the community. The immense role of teachers was highlighted upon for changing mindsets of students and for developing entrepreneurial skills. The need to nurture and develop skills, to experiment and explore and indulge in hand on learning to make learning a fun and gain the required skills was adequately highlighted upon.
