Plastic is polluting oceans, impacting biodiversity, and affecting human health. Plastic pollution is impacting the earth in various ways. Firstly, it is polluting our water. This causes a shortage of clean water and thus we cannot have enough supply for all. Moreover, it is also ruining soil and land. The soil fertility is depleting and disease-carrying insects are collecting in landfills of plastic.</p> </div> <div data-bbox="526 1680 1516 1870"> <p>Students of Classes VI-VIII took the pledge to avoid single use plastic. This was followed by essay writing competition on the topic “Eliminating single use plastic from our lives”. It was done to sensitize students about harmful effects of plastics. It also helped in educating them to take action to make plastic pollution a thing of past.</p> </div> <div data-bbox="574 1892 1516 2060"> <p>➤ <u>Competencies acquired-</u></p> <ul style="list-style-type: none"> • Systems competency, normative competency, strategic competency, critical thinking competency, Integrative Problem solving competency </div>
