

Name of the Event : **World Bee Day**  
Date : 20 May'22  
Conducted By : SCIENCE DEPARTMENT  
Students Participated : VI-VIII

The hum of bees is the voice of the Garden- Elizabeth Lawrence

World Bee Day is celebrated on 20th May every year, the purpose of which is to enlighten people about the ever- inspiring hard work of the worker bees.

This year, the main idea of the World Bee Day is to spread awareness about bee keepers, owing to their major role in helping control bees and their produce, especially during the COVID-19 pandemic when they faced a huge economic purge.

ITL Public School sensitizes students on conserving bees and to maintain a balance in the ecosystem. It was also emphasised that we should actively participate in this by spreading awareness and contributing to the cause.

#SaveBees # SpreadAwareness
