

Report - Bag less Day 2

Event: Bag less Day 2

Day/ Date: Friday, 20 May 2022

Time: 8am – 1:45 pm

Classes Involved: I-V

Bagless Day 2 was observed on **20 May 2022** equally full of fervor and passion to learn more. When teachers use activities that make learning engaging and fun, students are more willing to participate. Having fun while learning also helps students retain information better because the process is enjoyable and memorable.

Class I created an eye pleasing jewellery box using ice cream sticks.

Class II enhanced their number skills with the Activity 'Fun with Numbers' by using various number cards and clay practicing the number sum.

Students of Classes I and II were overjoyed to grasp the lyrics and understood the moral of the visual story enactments of 'The Magical Tree'. The Coding session with the story was the most sought out experience for all the students. They were overjoyed to see their 'sprit' jumping and running in their chosen background during the Coding Session.

The vocabulary of the students can be improved by games. **Class III** students enjoyed Race to react and learnt homophones. Students learnt to blow bubbles and the science behind it. Every child likes to play with dice and win. Addition was learnt without books.

Class IV students created an Airplane launcher with paper. Number Racket was played in class. The students learnt homonyms through Rapid Rumble.

Class V students created a train of factors. Idioms enrich our language and boost our conversational skills. Students had fun guessing the idioms and learning how to use them in their day to day life. Straw Sprinkler was an aid to learn the benefits of sprinkler irrigation. With practicing quizzes, students can do critical thinking, and get into a habit of innovative learning. The quiz integrates the game mechanics into the learning process. The students thoroughly enjoyed and look forward for more bag less days.
