

ITL PUBLIC SCHOOL OBSERVES WORLD NO TOBACCO DAY

Name of the Event: World No Tobacco Day

DATE: May 31, 2022

Venue: Online

CLASSES PARTICIPATED: IX TO XII

CONDUCTED BY: Science Department

"Tobacco is the only industry that produces products to make huge profits and at the same time damage the environment and kill their consumers." - Margaret Chan

World No Tobacco Day is observed every year on **31 May**. It is an annual event which attempts to raise global public awareness on the dangers of using tobacco. The day also underlines the business practices of tobacco companies, the actions taken by WHO to fight the tobacco epidemic. The aim is to sensitise the people around the world to take up their role as responsible citizens, to contribute conspicuously towards health issues to ensure better health conditions in the future ahead.

The theme for this year's World no tobacco day is **"Tobacco is killing us and our planet"**. We pledge to spread awareness amongst young ITLeens towards the ill effects of tobacco on human health and our planet.

Students prepared a poster and a short video to spread awareness about how tobacco kills over 8 million people every year and destroys our environment, further harming human health, through the cultivation, production, distribution, consumption, and post-consumer waste.
