1.	Title of activity	<b>World Hepatitis Day</b>
2.	Class	VI-XII
3.	Subjects involved	Science
4.	Facilitator	Ms. Pratishtha Gupta
5.	Brief description of the learning objectives, content of the activity and competencies acquired	<p><b><u>Learning Objectives-</u></b></p> <ul style="list-style-type: none"> <li>• Cognitive learning objectives- Learners will be able to understand about viral hepatitis, an inflammation of the liver that causes severe liver disease and hepatocellular cancer.</li> <li>• Socio-emotional objectives- Learners will be able to understand the importance of increasing awareness and understanding of viral hepatitis as a global priority.</li> <li>• Behavioral learning objectives- Learners will be able to highlight the need for bringing hepatitis care closer to the primary health facilities and communities so that people have better access to treatment and care</li> </ul> <p>➤ <b><u>Brief description of the activity-</u></b></p> <p><b><i>“On World Hepatitis Day, Let Us Motivate and Inspire People to Keep Up Their Fight Against Hepatitis”</i></b></p> <p>World Hepatitis Day is observed every year on 28 July to raise awareness of viral hepatitis, an inflammation of the liver that causes severe liver disease and hepatocellular cancer. The world is currently facing a new outbreak of unexplained acute hepatitis infections affecting children. WHO, together with scientists and policymakers in affected countries, are working to understand the cause of this infection that does not appear to belong to any of the known 5 types of hepatitis viruses: A, B, C, D and E</p> <p><b>ITL PUBLIC SCHOOL</b> observed World Hepatitis Day to increase awareness and understanding of viral hepatitis as a global priority. On World Hepatitis Day 2022, WHO is highlighting the need for <b>bringing hepatitis care closer to the primary health facilities and communities</b> so that people have better access to treatment and care, no matter what type of hepatitis they may have.</p> <p>This aligned with UN Sustainable Development Goal- 3, to promote health and wellbeing, and target 3.3: “End the epidemics of AIDS, tuberculosis, malaria, and neglected tropical diseases and combat hepatitis, waterborne and other communicable diseases”.</p> <p>The ITLeens participated in several activities to create awareness about this dreadful disease. This brought the children together under a single theme to raise awareness of the global burden of viral hepatitis and to influence the real change.</p> <p><b><u>Competencies acquired-</u></b></p> <p>➤ Systems competency, normative competency, strategic competency, critical thinking competency, Integrative Problem-solving competency</p>
6.	Time period of this activity	<b>28 July 2022</b>

7. Evidences included
