

## **Factory Visit at Livpure Manufacturing Plant, Manesar**

**Date :** 10 Aug 2022

**Organised by :** Nirmal Bhartia School

**Attended By :** Students of classes VII & VIII

On 10th August 2022, the students of ITL took a trip to the Livpure Manufacturing plant at Manesar.

Gauransh Khurana and Siya Sharma of class VIII B; Jay Mehta-VII A and Maahi Matai- VII C, along with Ms. Monika Bhardwaj took part in the expedition.

The kind and wise workforce and staff of Livpure enlightened the students with their knowledge in the water purification industry. They took the students in groups for a round of the factory area, where students gained several glimpses of the industry and purification systems at Livpure. Students saw different units used for filtration of water. Starting with Assembling System which included tech and packaging followed by using activated carbon, adding the pressure pump and membrane having tiny pores in it moving on to the Testing, Scanning and Barcoding systems including cleaning and quality checks were part of the visit. Finally, the Storage System which they follow "First In First Out" was shown.

The faculty was very eager and helpful, and explained the concepts gradually in an understandable manner. The entire trip was memorable and fruitful, as the students returned with new learnings and memories to cherish.
