

ITL Conducts Workshop on Waste to Wonder

Date : 22 August ,2022

Classes Attended : Class XI

Resource Person : Dr. Anandita Roy

Creativity is making marvellous out of the discarded.

ITL Public School organised an educative workshop **Waste to Wonder** for senior secondary students on **22 August, 2022**.

This workshop was designed as part of the Skill Development, whereby students learnt upcycling to create innovative products. **Dr. Anandita Roy**, PhD and Double Masters Degree in Science and Management was the Resource person for the workshop. The students learnt the art of creating a fresh new product by using leftover and scrap fabric and then embellishing the products with different accessories.

The sustainable products created by the students are a clear reflection of the creative minds of the students. The making of the products led to the enhancement of the thinking process of students whereby they learnt the essence of the concept of upscaling. The best products were awarded for their aesthetic brilliance
