

ECO CLUB

REPORT ON TREE PLANTATION DRIVE

Date:	July 22, 2016
Venue:	DDA Society, Sec-9, Dwarka
Conducted By:	Environmental Council
Attended By:	Eco Club Members
Organized By:	ITL Public School

Science and Technology has provided us with many comforts, the consequent urbanisation and industrialisation, also has had some undesired side-effects; Global Warming being one of those. The Club has identified this problem and has associated itself with this case. Thereby, the club conducts a Plantation Drive each year. But this year, unlike before, The Club has pledged to hold A Plantation Drive each and every month. ITL has taken up the responsibility to create a legacy for others to follow.

Continuing with its tradition of preserving Environment and having Eco-Friendly activities, ANTHELIA- The Eco Club of ITL Public School organised a major Tree Plantation Drive On 22nd July 2016 in a residential society to sensitize the students on the value of Tree Plantation under the guidance of Principal, ITL Public School, Ms. Sudha Acharya and Environmental Council Teacher Incharge, Dr. Vaishali Mishra, Ms. Pratishta Gupta and Ms. Shikha Sikka. Needless to say, the drive was a huge success, a group of 30 young & bright ITLLeens marched, chanted slogans and planted around 40 saplings of herbal plants such as Curry Leaves (Murraya Sp.), Jatropa, Hibiscus (China Rose), Kalanchoe Pinnata, Bougainvillea, Alpinea, Neem etc, procured from the Department of Environment, in the garden of a nearby residential society with utmost enthusiasm. Some plants were also gifted to the members of RWA Society. The residents welcomed and supported this operation wholeheartedly.

The students gained an invaluable experience from this small expedition. They gained knowledge about the different species of plants and also got to know about the procedure of planting trees. All in all, this event served a quadruple purpose – to educate the youth, contribution to the betterment of nature, skill development and reminiscence.
