

REPORT ON SKILL BAZAR 2016

ITL public School took a transforming leap by organising Skill Bazar 2016 on Saturday, 15 October 2016. Launching the Startup Product was the centre of attraction as the students learnt the concept of entrepreneurship from the nuances of manufacturing to retailing. The months long endeavours of students under the meticulous guidance and quality precision of teachers, the students launched pure, safe and HERBAL floor cleaner, hand sanitizer and mosquito repellent..! Adding the festive charm to the Bazar was the hand made products by our students during Skill Week. This included Terracotta Jewellery and Pottery, Handmade Bags and Boxes, Tie and Dye, Hand Crafted Products, Paper Quilling Jewellery, T-Shirt, Paper Mache Masks. Needless to say that, all the hard work fructified into the stupendous success of this Skill Bazar.

We thank the parents for their enthusiastic buying of these products and motivating our students. The Principal, Ms. Sudha Acharya congratulated the students for their innovative and entrepreneurial skills. This startup project has been one of a kind which taught true lessons of power of skill enhancement.

The proceeds of this Bazar were forwarded towards charity..!

Way to go ITL...!
