

AUDIO VISUAL HERITAGE DAY 27 OCTOBER 2016

CBSE understands that Audio Visual Heritage is a very important part of our tradition and encourages everyone, everywhere to join in celebrating 27 October 2016 as Audio Visual Heritage Day.

ITL Public School celebrated its Audio Visual Heritage Day wherein a nostalgic amalgamation of some sound and visual recordings from the archives were showcased. These included authentic interviews of Mahatma Gandhi, a historic interview given by Mrs. Indira Gandhi before the 1971 war. The one video which got everybody in that patriotic fervour was the original interview of Capt. Vikram Batra who was martyred in the Kargil War.

The event began with “*The Short Story of India*” which was an exquisite recording displaying the rich culture of our country and at the same time imparting knowledgeable facts linked to our history.

To add on to this, the students of XI Humanities presented a documentary on Humayun’s Tomb. The fact worth noting was that the documentary was totally made by the students. The students, had visited the Humayun’s Tomb to shoot the documentary on Saturday 22nd October’2016. They spent almost the entire day over there to give the best possible results.

This day couldn’t have been complete without giving an honour to our exquisite dance forms. Soumya Gupta of XIF presented Kathak on a soul stirring classical song.

Heritage can create a stir, can reverberate us with emotions and we did manage to do it, when we saw some teachers in the audience smiling through their tears. That kind of heartrending again reminded us that Heritage actually is as important and as close to us, as our own being.
