VENUE : CLASSROOMS, ITL PUBLIC SCHOOL

CONDUCTED BY : STUDENTS & TEACHERS OF CLASSES VI – X.

‘The purpose of Education is Knowledge of values and not facts’ – William Ralph Inge

ITL Public School believes in promoting effective learning and underpins the continuous improvement of personal, social, moral and emotional wellbeing. Values work in a dynamic way through developing aspects such as leadership focus, positive role modeling and community values.

Keeping in mind this philosophy, a VALUE BASED WEEK was observed during 25th – 29th April 2016 at ITL Public School for classes VI – X. A plethora of activities were meticulously planned during this week covering a wide range of topics like Honesty and Integrity, Courtesy and Good Conduct, Respect for law and order. Students in a gamut of activities like Radio Show, Blind-Fold Activity, Role Play, Debate, Skits and making Web-Charts and Graphic Organisers. Brainstorming sessions on Conflict management and coping with stress were also held. Students prepared Thank You cards for the courteous and gentle people around them who have made an imprint on their minds. They designed innovative flash cards on Do’s and Don’t’s of school life and creatively depicted these handcrafted “SCHOOL RULES” on their class soft boards. They pledged together to follow these rules.

A whole ambience of Values was created by the students which not only sensitized them towards the deterioration of values in our society but also gave them a vision and wisdom to think clearly and save the society from the crumbling Value System.

Such initiatives are the need of the hour to awaken mass consciousness and build up a strong character in students. Empowering the future citizens of the country is the only way to empower the nation as said by the great leader of our country, Mahatma Gandhi -

“Your beliefs become your thoughts,
Your thoughts become your words,
Your words become your actions,
Your actions become your habits,
Your habits become your values,
Your values become your destiny.”
