

SPECIAL ASSEMBLY CLASS II ON WATER CONSERVATION

DATE	:	19 July 2017
VENUE	:	Science Lab
ORGANISED BY	:	ITL PUBLIC SCHOOL
CONDUCTED BY	:	CLASS II
ATTENDED BY	:	CLASSES I-II

On 19th July, 2017, Students of class II of ITL Public School presented an assembly on topic of Water Conservation. To uphold the idea that water is the most valuable resource on the Earth and all living being must save water to save the Earth. Student began the assembly with a thought on “Precious water” A melodious song was also sung to glorify the importance of all natural resources in our life. Thereafter a skit was presented where the journey of water drops named Pitpat and Driprop were depicted. The water droplets travelled from an ocean to cloud and returned back to the ocean. After the skit the assembly ended with a remarkable dance performance by the students. One of the key purposes of engaging young children in this presentation was to make them aware about water cycle & learn the importance of water that every drop of water is very essential to our life. Lil ITLeen’s have shown their effort and best performance which will always remain engraved in the memory of all.
