

ITL Celebrates evolution and innovation

Date: 8th May, 2019

Venue: Skating rink

Organized by: ITL Public School

Conducted by: Classes VI- VIII

Participants: VI- VIII

“For innovation to flourish, organizations must create an environment that fosters creativity.”

ITL Public School always strives to provide its students various outlets to showcase their talent and creativity through various means. In one such endeavor the school organized a special assembly on the theme **Ape to App** for the students of classes VI to VIII to highlight the role of technology in shaping our lives.

We are surrounded by technology all around us and it has become an indispensable part of our lives. The assembly focused on the evolution of man through the ages, from a primate using stones to technologically advanced beings. How technology has revolutionized our lives, was the essence of the assembly. The students were quite enthusiastic during the assembly as it provided them with a lot of information regarding recent inventions and different aspects of technology, from the ones that they have seen and used themselves to **Artificial Intelligence**, which is the buzzword these days.

The assembly was a great learning experience helping students to understand how to handle technology judiciously.
