“To the world you are a mother but to us you are the world.”

In this time of a pandemic hit world, we are locked down in our homes but we are working with more energy, zeal and enthusiasm to come closer to our students. The teachers, students of Class III and their parents had a great experience of conducting a **Virtual Assembly** on the special occasion of **Mother's day**.

Mother's Day is celebrated every year on the second Sunday of May to honour a mother and her pure, selfless and nurturing motherhood. The children express their affection and gratitude towards their mother. It is a special day dedicated to all mothers working day and night for the family.

The virtual assembly started with a beautiful prayer and thought, followed by the news update, all done by our students of Class III. The program proceeded with enchanting songs and dance performances by students and their mothers. Few of the students enacted short skits along with their mothers. The technology helped us to maintain social distancing but come emotionally closer. It was really an overwhelming experience to organize and witness this moment where emotions, feelings and love were personified.
