

International Labor's Day

Date: 1st May, 2013.

Venue: ITL School.

Time: 2p.m.

On the occasion of International Labor's Day on 1st May 2013, the students of ITL Public School put up a small show for the conservancy staff working at the school. The occasion was graced by the presence of the school counselor, the main conductors- President and Vice- President of Social Service Club along with a few other council members. All put in their hard work for making this day special for the school staff. As a token of gratitude, the junior and middle wing's students made 'Thank You' cards, which were distributed amongst the staff present there, making them feel a part of their world and thanking them for their selfless acts. As a start, a short story was presented by the Head of Hindi Publications Department, highlighting the need and importance of labors in our day-to-day life. Right from the driver that drops us to school, the maid who keeps our house neat and tidy, the Gardner who takes special care of the beautiful flowers and trees in our parks or gardens.. Such examples are endless. It was followed by a dance performance by one of the workers which was appreciated by all. It was then followed by a beautiful and mesmerizing musical performance by the Editor of English Publications and President MUN Club, which caught attention of everyone present there. A speech was given by the Head Girl of The Junior Council body. In the end, the senior and junior council body stood on the podium saluting the staff and the laborers, for caring about the school and the students and helping in the development of school, for without them ITL would just be some other school.
