

SHARING THE FESTIVE JOY

Date – 29th October 2015

Venue – Physics Lab

Time – Noon

We wish the countless diyas illuminate our lives with endless joy, prosperity and health forever. Imbibing this spirit and sharing this happiness, the students and teachers of ITL took up the noble initiative of making this Diwali special for all the support staff members. Diwali, the festival of joy, is one when we feel immensely grateful for all that the support staff has done for us. The spirit of Diwali is all about sharing, therefore, we put in this extra little touch to share our happiness with them.

The students and teachers both pooled in money to buy dinner-sets for all the members, which is something very useful and important in our daily lives.

On the 29th the students put up a small cultural program which included a song sung by all of them. These dinner-sets were gifted, along with refreshments, to the members of the support staff by the respected Principal Ma'am. The recipients were overjoyed and grateful. Through this gesture ITL succeeded in making the festival of Lights even more luminous for its workers and the festival surely a dazzling one for everyone involved in the project.
