

Visit to Muskan Foundation

Date : 28 September 2021

Venue : Muskan Foundation for children from underprivileged section of society, Dwarka

Organized By : Social Service Club, ITL Public School

Attended By : Student Representatives from X-XII

The students of **ITL PUBLIC SCHOOL** visited **MUSKAN FOUNDATION** (An NGO working towards the rehabilitation of the underprivileged children battling with Drug addiction), in Dwarka with a lot of zeal and enthusiasm to distribute stationary items amongst the less privileged kids.

The aim of the initiative was to encourage learning and to help the young children to chase their dreams. We as a community strongly believe that education is every child's birth right and their wish to study should not get affected because of lack of learning resources. The students representatives conducted a small interactive session with the young children using different means like music and quizzes. The kids truly enjoyed these performances and participated enthusiastically. The school also donated over hundred books to support CBSE's Reading Mission to motivate students to read, along with clothes and toys.

The students representatives also shared a nutritious meal with the children under the "Rashtriya Poshak Maah" project.

The visit was an extremely educational and enlightening experience for the students who were able to recognize the true purpose of education with such gesture of kindness.
