

Nature Walk

VENUE: ITL PUBLIC SCHOOL

ORGANISED BY: ITL PUBLIC SCHOOL

CONDUCTED BY: Pre Primary and Class I

“To walk in nature is to witness a thousand of miracles”

It is always fun to help and be with our green friends as they help to keep our environment clean, to purify air and give us oxygen to survive. A nature walk is an excellent way to stimulate a child's appreciation for the natural world. Children of class Pre- Primary and I were taken for an Eco-walk within the school premises. Teachers encouraged them to observe the plants and surroundings. They noticed butterflies, birds, creepy animals, flowers and nests etc. The nature walk broadened their knowledge and gave them familiarity of herbs, shrubs and trees. Children asked various questions during the nature walk and teachers explained them everything. It was an enriching activity for them. They came back rejuvenated, with less anxiety and increased attentiveness. They recorded their observations in the form of sketches and collected samples of leaves and flowers. They also recorded their experiences in a Nature Walk – Journal'. It was an important step for developing passion for nature in the students so as when they grow up they would care about nurturing and protecting the natural environment and our planet.
