## **Message from the Principal**

*"Problems and challenges are not a dead end; they are only a bend in the road. Problems are not stumbling blocks; they are stepping stones to a better, richer, more radiant life."*

**- Dada J.P. Vaswani**

**Greetings of the day!**

With the warmest compliments, I welcome the esteemed members of our management committee whose metamorphic support and evolutionary advice helped us not only grow but flourish, our valued parents, whom I deeply admire for the support they have rendered during this difficult time by keeping our spirits high with their recognition and constant appreciation of our efforts and our meticulous students who have never failed to make us proud and have never been afraid of accepting new challenges.

Together, brick by brick, we have built our palace of knowledge and compassion- the SVISG family is committed to deliver the world, future ready citizens, engaging with the global problems, collaborating on the international terrain and finding creative and sustainable solutions to some of the most complex social challenges. We proudly present to you the best of our talent, exemplifying the highest standards of the mind and the heart as I welcome you all to the *2nd Virtual Annual School Exhibition*.

Our desire to excel is sustained every year by the Annual Exhibition, which is powered by the 17 Global Goals established by the UN. This year's theme, Creative Economy for Sustainable Development will allow you to explore the futuristic approach to remodel the world.

Each project, as you will witness, has been crafted by creativity, ingenuity, character and scientific temperament. A lot of dedication has gone into making the projects the best models of technological prowess. The blend of Science, Technology, Literature and Art synergized with the creative genius of our students and the time-tested experience of the teachers will open a plethora of opportunities, a podium of ideas and foster lifelong learning.

We, at SVISG, believe in bringing out nothing but the best in our children. Constant motivation, upgrading our curriculum to the latest demands of the digital era and continuously challenging our learners has helped us accomplish the objectives of 21st century Life Skill education. I am positive that you will be fascinated by the marvels designed by our young innovators.

Hope you have an enriching experience!

Good Day!

### **The India Toy Fair 2021**

Experiential and joyful learning have always been the most important aspects of our school's curriculum. Both have been beautifully woven into all our teaching learning strategies. Our dedication for imparting best education to the students motivated us to be a part of The India Toy Fair 2021. The journey that started with accepting the challenge of showcasing our unique and innovative toys to the outside world, continued with the selection of our school as one of the exhibitor in The India Toy Fair 2021 among 99 other CBSE schools, SCERT schools and reputed universities like IIT. With all our hard work and motivation, we showcased our best 25 innovative and interactive toys/games (out of many more) for The India Toy Fair and proudly shared our best practices with the world - Experiential and Joyful learning.

Our students also made us proud by innovating toys and linking them with the curriculum. It has been a wonderful and fun-filled experience for the students as well teachers to be a part of The India Toy fair 2021.
