

EXCURSION TO KIDZANIA (CLASSES III-V) (SESSION 2022-23)

Excursion to KidZania

The objective of education is to prepare the young ones for their holistic development. In cognizance with this thought, a day-long excursion to KidZania was organized for the students of Class III, IV and V on 13th, 15th and 21st December 2022 respectively. The students, along with their teacher in-charges, were brimming with excitement and enthusiasm as they boarded the buses.

KidZania provided a safe, indoor environment that empowered the kids to explore, challenge themselves and open their minds to new experiences thereby stimulating creative thinking and boosting confidence. It also offered a truly unique experience and an interactive learning opportunity by fostering a hands-on approach for children to explore the world of occupation.

Students were bubbling with energy as they enjoyed real world occupations like private services, public services, entertainment, airline, automobile, retail, restaurants and factories wherein students played the role of a pilot, surgeon, detective, chef, engineer, TV Producer, radio jockey, car mechanic and many more.

The excursion strengthened in them the bond of friendship, sense of responsibility, value for dignity of labour and quality of being independent. It was an enthralling experience that enabled the young learners to appreciate the contribution of each member of the society.
