Dear Mr. Batta,

I am Shashank Teotia, father of Prisha Teotia (Student Bloom Public School Calls - II)

It is with a profound gratitude that I write this mail to thank you & your extended team in saving my mother's life. On 18<sup>th</sup> Dec 0845 Hrs, my mother had a very close shave with life, but thanks to your Paramedics, In house Doctor & over all admin staff she continues to enjoy the biggest blessing of god i.e. life today. The prompt response and on premise medical attention, gave her those critical minutes to fight the battle of life against a severe Cardiac arrest that she got while climbing the stairs of your school. Wise thinking of the staff & doctor not only managed to give the right immediate attention she so badly needed then, but also simultaneously made immediate arrangements to get best treatment done at Fortis hospital Vasant Kunj.

In less than 2 minutes the doctors was there to attend her in the school & in the next 10 -12 minutes she was at the emergency room of Fortis hospital getting best of the treatment available.....

We really run short of words to thanks each one of you for what you did that day!!!! Please convey our gratitude to your entire staff & we look forward to thanking you in person too.

**All this gives us a great assurance to send our little child to your school as we are sure that she is in safe hands!!!!!!!**

Regards  
 Shashank & Anuricha Teotia
