

**ITL CANDYFLOSS  
SESSION 2020-21  
REPORT ON PAPER BAG DAY  
Date : 10<sup>th</sup> July 2020**

Paper Bag Day is celebrated on 12<sup>th</sup> July globally every year to make people aware about the use of paper bags that contribute to fight with climate change and environment pollution. These bags are 100% reusable, recyclable and biodegradable and at the same time environment friendly and pose less threat to wildlife. It requires less energy for paper bags to be recycled than plastic bags.

Therefore, to make the little artists of ITL Candyfloss aware about the importance & usage of paper bag, we conducted this activity wherein the children made their own paper bag using news paper & some decorative material. The fun-filled activity inspired young minds to contribute to the Mother Nature by using paper bags and saying no to plastic bags. By & large, students showcased their creativity by decorating the paper bags vibrantly.
