

ITL CANDYFLOSS
First Day Of School Report
Session 2022-23

Day/Date: Monday, 4th April 2022

Education is all about igniting young minds and enabling them to attain their fullest potential. We at ITL candyfloss aim to deliver smooth physical, mental and emotional development of children. We started off the first day of session 2022-23, with a melodious morning prayer, to ingrain positivity and gratefulness in the young minds of our children.

Knowing that children are blank canvases, we tried to paint them with the values of kindness and good deeds through various moral value tales . The activity was done with the use of puppets to make it more fascinating. After the narration, the children were given worksheets to scribble in their favourite colours, aiming to develop their fine motor skills and eye-hand coordination. Outdoor activities like relays,hurdle and hooplah races were conducted so as to enhance their gross motor skills. The day concluded with home time prayer.
