

ITL CANDYFLOSS

World Wetland Day Report

Session 2021-22

Day/Date: Tuesday, 2nd February 2022

" Wherever land meets water, life abounds. "

World Wetlands Day aims to raise global awareness about the vital role of wetlands for people and planet. The theme for 2022 is "Wetlands Action for People and Nature" highlighting the need to take actions to ensure the conservation and sustainable use of wetlands for human and planetary health.

To get a better knowledge and understanding, a first-hand experiential activity was conducted by the students of ITL Candyfloss, whereby, they built their personal Wetlands. The day also witnessed a heavy discussion by Little ITLeens rationalising, reasoning and using their logical minds on the various values and natural products which are derived from Wetlands like fishes, berries, timber wood leading to Reduced Hunger, Flood Protection & Clean Water, opportunities for recreation and aesthetic views creating Decent Work & Economic Growth , hence maintaining Life below Water & on Land. The discussion further escalated to hence, the importance of protecting, conserving and sustaining it and all coming to a united conclusion that "Protecting wetlands can Protect and Sustain our Cities and Communities - Safety and Welfare".
