

ITL CANDYFLOSS

Safer Internet Day

Session 2021-22

Day/Date: Wednesday, 8th February 2022

Internet enhances and augments human intelligence but on the other hand, it may have negative impact on us. To justify the statement, the little champs of ITL Candyfloss observed Safer Internet Day on 8th February with great zeal and enthusiasm with the theme “All fun and games”. Children acquired the knowledge of smarter use of internet, through a story narration on “Rules of internet” by the teachers. The little artists also expressed their vision of SMART on the sun with its rays on which they wrote smart rules of internet as well as spoke about them. The day aimed a safer and more responsible use of online technology by children around the world.
