The school Chairman strongly believes in making the school a place of excellence, where technology assists the learners and administrators, an ever-evolving quest for the unknown drives the passion for learning in the young minds, where values and ethics determine the course of action, physical fitness sharpens the mind, where the world is an extension of one's arena of home & work place. *"We should not wait
for inspiration to start a thing.
Action always generates
inspiration.
Inspiration seldom generates
action."*

Charismatic & Energetic Chairman - Mr. Sailander Solanki

The School Principal holds 29 years of rich & varied experience in India & abroad of which 15 years have been in administrative capacities. She leads a team of young, trained and dedicated faculty members with the primary focus on empowering the ignited minds. She encourages her faculty and student to be always eager to learn and improve as the learning & teaching environment is dynamic & ever-evolving.

Every possibility exists for one who intends to uncover what lies within. If we discover our inner self, every dream would become a possibility, every fortune would become conceivable & every fear conquerable. There are immense possibilities for those who dare to dream & turn those dreams into reality. Goals are dreams with a deadline attached to them. S.V.I.S. is one such happy place where students and faculty grow together and realize their potential. The infrastructure and the teaching methodology at the school go on evolving to keep pace with the ongoing innovations.

We would help them develop the knowledge, skills and attitude that would facilitate their active participation in meeting global challenges.
