ENGLISH

Recycle Poem

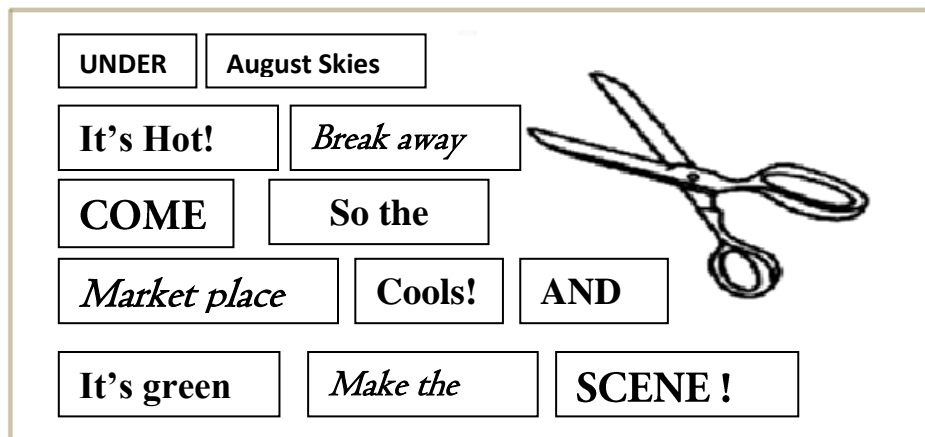

Be a poet. Try to feel and imagine a poetry. Let's do it in an innovative style by using the cut outs from old newspapers and create your own recycled poem on an A 4 size sheet.

Instructions:

Look through old magazines and newspapers for interesting words and phrases. Cut them out. Be sure you choose a good variety. Begin to arrange them into some pattern which will make a poem. Try to make one that expresses your thoughts about a topic, or one that describes a subject.

Keep moving the recycled words around until you are sure that it makes sense and looks pleasing. Then paste the cut out words and phrases onto your paper in its poetic form.

Sample of a Recycled Poetry

Reading is the backbone of all Learning.

Pick up a book of your choice and read it. Depict a short summary of the book you have read on an A4 size sheet using a web cluster.

You must include the following points:

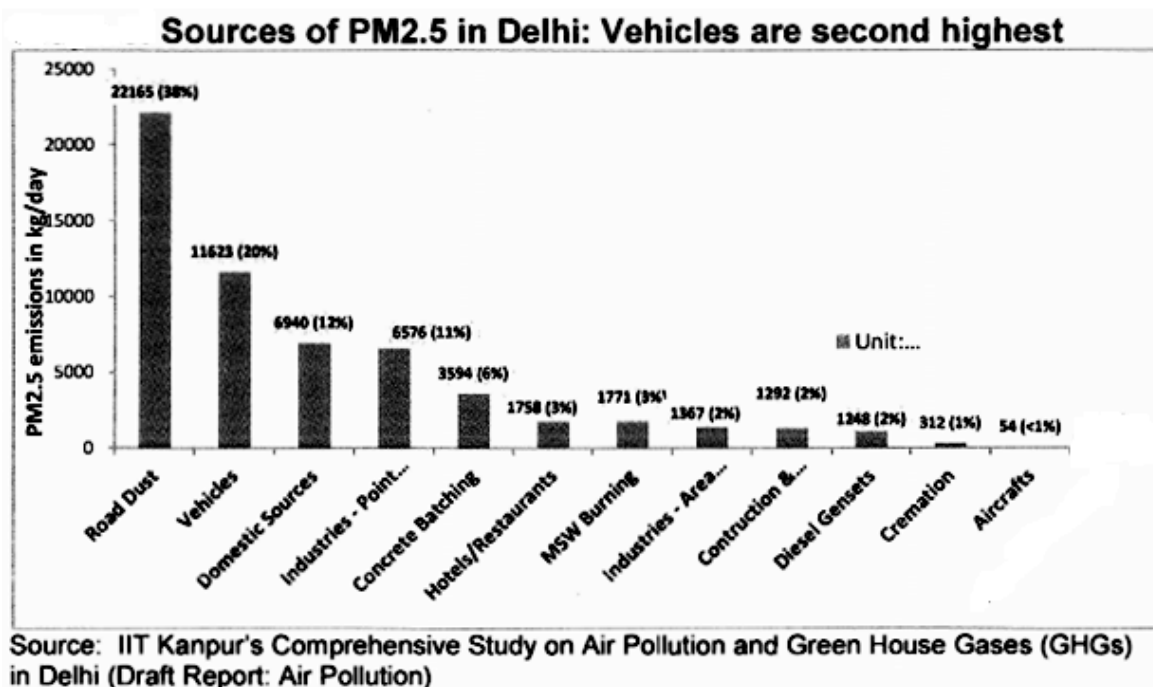

- *Name of the book and its author.
- *Genre of the book.
- *A list of characters in the book.
- *The character you liked the most.
- *The main plot of the book.
- *Any give new words you learnt from the book.
- * The lesson or message you learnt from the book you have read.

MATHEMATICS

Activity I

Particulate matter is emitted during the combustion of solid and liquid fuels, such as for power generation, domestic heating and in vehicle engines...PM2.5 means the air of particles with a size less than 2.5 micrometres.

Following bar graph shows the various sources of air pollution in Delhi in the year 2019

Read the graph carefully and answer the questions carefully:

1. What is the main source of air pollution in Delhi?

2. What is the difference in the amount of PM2.5 emissions of vehicles and domestic sources?

3. What contributes least to the air pollution?

4. How many sources of pollution are depicted in the graph?

Activity 2: MAGIC SQUARE

In recreational **mathematics**, a **magic square** is a **square** grid filled with numbers (positive integer) in the range such that each cell contains a number and the sum of the numbers in each row, column and diagonal is equal.

Write the numbers 1 to 9 in each of the squares below, so that each row , column and diagonal adds up to 15.

8		

Activity 3: Sudoku Puzzle

The modern version of Sudoku was invented in 1979 by Howard Garns in USA (where it was called `Number Place'). It became popular in Japan in the 1980s and in the UK since late 2004. The word Sudoku is an abbreviation of a phrase which means “the digits must occur only once”.

Fill in the puzzle so that every row across, every column down and every 2 by 2 box contains the numbers 1 to 4.
