

## **REPORT ON POSTER MAKING COMPETITION**

National Mathematics Day is celebrated on 22<sup>nd</sup> December every year to spread awareness about the importance of Mathematics and the contributions made by the scholar of mathematics Srinivasa Ramanujan. This date marks the Birth Anniversary of Sri Ramanujan.

On the National Mathematics Day, 22<sup>nd</sup> December 2020, Maths Department of TAFS also organized various competitions for various classes. **Mathematics** and **art** are related in a variety of ways. **Mathematics** has itself been described as an **art** motivated by beauty. Doodles are simple drawings that can have concrete representational meaning or may just be composed of random and [abstract](#) lines, generally without ever lifting the drawing device from the paper, in which case it is usually called a "scribble".

The students of class VIII<sup>th</sup> actively participated in the **Mathematical Doodle Art Making Competition ON THE TOPIC “ INTERESTING FACTS ABOUT MATHEMATICS”**.

Students made beautiful doodle arts displaying various interesting facts on Mathematics. The students participated with great zeal and enthusiasm.

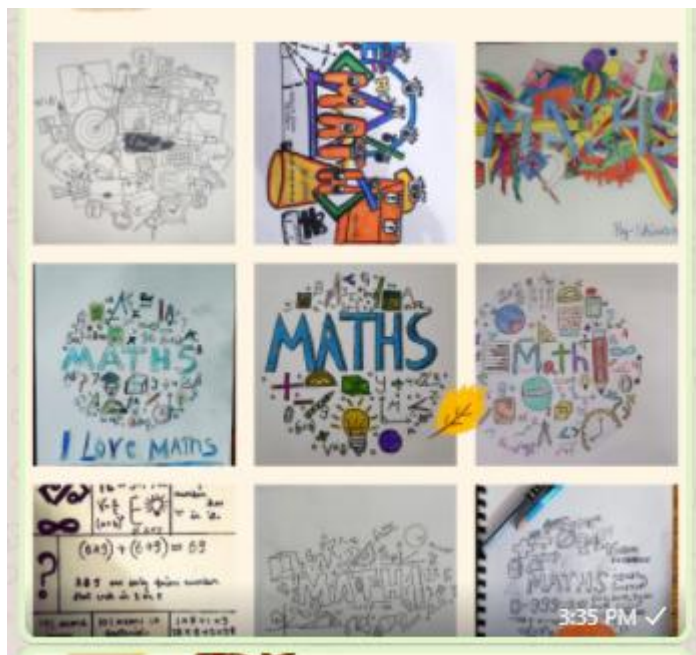

The three winners of the competition are :

Position 1 TANISHA VIII A

Position 2 DHRUV SINGH VIII E

Position 3 AVIRAL VIII C AND VAHIN CHOUDHARY VIII D

Some of the wonderful work done by our students.
