

WEBINAR REPORT

A webinar was held on “Vedic Maths” through Pratham on 22nd march at 15:00 hrs. The webinar was held for students of classes 6th, 7th and 8th.

Various formulas of vedic maths were discussed and practiced in the session. With help of these vedic maths formulas children were able to solve very difficult numerical problems in a very easy way and in a short time.

The speaker kept the students engaged by making students practice various questions.

Overall, session lasted for an hour and was very interesting. It was a great learning experience with tips given for practical application for calculative purposes.

The images of the session are attached below:
