

Webinar – Time Management

A webinar was held on 18th July 2021 on the Topic time management. It is imperative that the students realize the value of time and learn the skills of using it wisely. The webinar was conducted for classes XI and XII to assist them in managing their time effectively, especially in the pandemic. The session was presided by Ms Tarannum N Raza.

The webinar was attended by 35 students who participated with utmost zeal .

Feedback

1. Today's webinar about TIME MANAGEMENT was very good! The speaker talked about to first enlist the daily tasks and divide them into important and not very important. Reduce sleep time by half hour. To prioritize is the need of the hour. If we don't plan early later on we do not get time to do what we want to do later on! We must be most active during the day since our exams take place during day! MNG
2. This webinar really helped me realise the importance of time..Last year during lockdown , I wanted to learn playing flute but I wasn't able to take out time for that.. now I will be able to spend some time on me learning new things.

4. Webinar by Ms Tarannum N Raza gave a beautiful webinar in time management that how we can manage time for school work, helping mom with chores, for our hobbies etc. I like one thing that she said was that if we save time it would get multiple. We should divide things that which are useful or useless. She told how to deal with stress.
