Advisory

Prevention of Covid-19 Omicron Variant

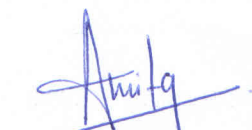

1. Delhi has reported the most number of cases of the omicron Variant of Coronavirus. Active Covid-19 Case load in India has also jumped to a large number. The highly transmissible omicron variant is known to evade existing immunity from vaccination, leading to more break through infections, though not necessary to a higher incidence of severe Covid-19 disease.

2. Attention of all concerned is invited towards the spread of omicron variant of coronavirus as it is at least thrice more transmissible than its Delta variant. Hence, as a preventive measure, all the school staff are to follow the following steps.

- (a) Wearing a face cover/mask all the times especially during any activity in groups.
- (b) Physical/ social distancing norms should be followed Minimum 6 feet Physical distance should be maintained.
- (c) Self-monitoring of health by all and disclosure about any illness at the earliest to state and district helpline as well as school authorities.
- (d) Cough or sneeze into a tissue or elbow and avoid touching face, eyes, mouth and nose.
- (e) Consumption of tobacco, Smoking and spitting in open is strictly prohibited inside school campus.
- (f) Use of alcohol based hand Sanitizers and washing of hands at regular intervals.
