

VAN MAHOTSAVA 2022

A special assembly was put up by the students of class VI to celebrate Van Mahotsava on 1st August 2022. It began with a powerful speech by Reina Dhingra stressing on the need to change our attitude towards environment. This was followed by an awe-inspiring poem recitation by Kartika, which also held a mirror to our society sensitizing all, about a horrifying prospective reality deprived of the precious gifts by Mother Earth. A roleplay performed by the students of class VI-C and VI-E was next in show, which related the importance of trees in our lives, and how they should always be our first priority. Then the assembly took an oath and promised to 'nurture the nature' the way it nurtures us. This was followed by a massive Tree plantation, wherein all the students along with the principal ma'am and the vice principal ma'am, planted saplings in the school campus. The students have also named their plant buddy with beautiful names like 'Bloom', 'Palash', 'Mangy' and so on.

The commendable efforts of the students and teachers in organizing the assembly were highly appreciated by our respected Principal Ma'am, Ms. Amita Gupta. Ma'am also stressed on the need to be protective of nature as it responds to us the way we treat her. Her insight on this give-and-take relationship between Man and Nature was truly enlightening. The audience enjoyed the show thoroughly and expressed their appreciation with a loud round of applause.
