

Students of class XII attended popular science lecture on “The Magic and the Mystery of Stem Cells’ Organized by National Science Center on 8th August 2022.

Dr Sujata Mohanty Professor: Centre of Excellance for Stem Cell Research, AIIMS was the spokesperson of this event. The speaker shared future prospect of stem cell and how it can be explored in future for benefits of society. It was an interactive session where students asked their queries about various aspects of stem cells.

Students observed gallery and observed various working models related to science.

The students enjoyed the workshop and they learnt the various processes used in stem cell technology.
