

## **PSYCHOLOGY WEBINAR**

A webinar was organised on 'The Changing Face Of Psychology' by Delhi Public School, Gurgaon in association with ICTRC on Sunday , 13 th November '22 at 10 a.m. It was held on zoom platform. The session was attended by the interested Psychology students of grades XI and XIIth

Dr V S Ravindran was the key speaker of the event. He is a renowned educational psychologist and trainer. He has been involved in the training of people in leadership positions in educational institutions, corporates and government organizations for more than two decades. His major areas of expertise are leadership development, counsellor training and teacher education.

In the session he spoke about the new emerging careers in Psychology. Next, he emphasised about the changing role of Psychologist in today's times. He also helped to break myths about the field of Psychology. Further he helped children to understand about the discipline by sharing ethics that one must practice and spoke about some personal attributes that are required to be a Psychologist.

Overall, it was a very informative session.

Feedback of the session:

- D Swarnika , Grade XII  
"A webinar was conducted on 13th November at 10 am with the renowned psychologist Dr.Ravindran. He spoke candidly about psychology as an emerging field and the way stigma has comparatively reduced about mental health issues. He shared how we should actively avoid and call out misinformation, malpractices and misrepresentation of psychology in the media. In an interactive session he enlightened us with the ethics of psychology and what personal qualities we should have as people".
- Ananya Singh , Grade XI  
"It was an eye opening session that really did a reality check for those attending. I found it very informative and helpful. Dr Ravindra talked about the ever changing face of psychology and how it is going in a negative direction. He also answered a few queries that were very helpful. Overall the experience was very informative and helped gain a better understanding of psychology in today's world.
