

## VACCINES- INJECTING HOPE

### Educational trip to National Science Centre: Inauguration of Vaccine Drive

On 15th November, Class XI-B was taken on an educational trip to the National Science Centre to attend the Inauguration Ceremony of the Vaccine Drive in India and the International Travelling Exhibition 'Vaccines Injecting Hope' an initiative of NCSM and the Science Museum Group, UK. The exhibition was inaugurated by Shri Arjun Ram Meghwal, Minister of State for Culture & Parliamentary Affairs at the National Science Centre, Delhi in the presence of Mr Alex Ellis, High Commissioner, British High Commission in India, Mr Scott McDonald, Global CEO, British Council, Sir Ian Blatchford, Executive Director, Science Museum Group, London, Mr A. D. Choudhury, Director General, NCSM, Ms Mugdha Sinha, Joint Secretary (Museums), Ministry of Culture, Govt. of India.

The exhibit showed the journey of the Covid Pandemic and Humanity's triumph over it and explained the procedure of the development of vaccines against different variants of the Corona Virus.

The students also got to visit the science exhibit consisting of various activities and Galleries such as the Water: The Elixir of Life Gallery, Our Science & Technology Heritage Gallery, Pre-Historic Life Gallery and Human Biology Gallery.

The students also got to interact with Scientists and artists involved in this project.

Overall, it was a very informative and fun-filled trip.
