

EDUCATIONAL TRIP TO NATIONAL BAL BHAWAN NOVEMBER 2022

The Air Force School endeavours to provide a holistic learning to its young and impressionable students. The classroom learning is thus often linked to experiential learning. In this context the students of class VII A, B and C paid a visit to National Bal Bhawan on 2nd, 3rd and 4th November ,2022 respectively.

Bal Bhawan is one of the most popular institutions in Delhi founded in the year 1956 by Jawaharlal Nehru, which believes in the hidden potential of every child. Bal Bhawan runs with the motive of making children realise their calibre and giving a common space to their creative potential..

Students of TAFS carried out activities on Aeromodelling and Radio and electronics, art and craft, music and dance. They made special paper planes and enjoyed flying them outside. The creativity and talents of our students were exhibited through various activities.

Hamara Bharat Gallery which is located some distance away from main area is very beautiful and creates a feeling of patriotism and sense of belongingness for our country. Paintings related to value education were really motivating.

The museum houses a breathtaking collection of paintings and crafts reflecting our glorious past, and included beautiful dolls depicting various epics, tales and Indian historical and mythological events.

The exterior walls of the museum are covered with interesting graffiti and paintings depicting the culture and traditions of different states of India. The students were able to see at a glance the rich and vibrant cultural heritage of villages and our country. The enthusiastic school group was thrilled to visit the art and craft gallery where the exhibits ranged from craftwork utilising waste material to printings and clay modelling.

Next, the group visited the traffic park located inside the campus. They were briefed about the do's and don'ts of driving and walking on the road with a special focus on road signs and

traffic rules. A pledge on Road Safety was also taken by the students. The road safety show was very informative as it is very important for students to learn about traffic rules at a young age so that they grow up to become responsible citizens

The students also visited the mini zoo and aquarium situated on the museum grounds.

Finally, it was time to board the buses and head back to school.

It was a fun-filled educational trip which provided the students with a joyful and enriching learning experience in an outdoor classroom.

The students enjoyed their time in the Bal Bhawan and desired to stay there for more time.
