

MATH O MANIA

REPORT

ON SPOT QUIZ

Maths Department is celebrating its maths week from 19th December to 23rd December in this whole week we have planned different activities for particular classes and some activities are open for all. One of the activities is on spot quiz.

ON SPOT QUIZ

WHAT IS THE PURPOSE OF QUIZ

A quiz is a quick and informal assessment of student knowledge. Quizzes are often used in higher education environments to briefly test a students' level of comprehension regarding course material, providing teachers with insights into student progress and any existing knowledge gaps.

BENEFITS OF QUIZ

Quizzes are good for revision. Quizzes can help pupils revise without even realising they are doing it. And a quiz is a good way for a pupil to identify and take ownership of their knowledge gaps. It's also a great way to help them to plug the gaps to boost their confidence when it comes to formal testing.

We had conducted on spot quiz in the maths week as one of the activity which was open for all, this activity was conducted during lunch break on 20th (basket ball court) , 21st (volley ball ground) , 22nd (football field).

In this activity student had to answer three question

If the student is able to answer all the three question correctly then he/she was awarded a **"MATHS WIZARD"** batch

for the day and a chocolate .

If the student give any wrong answer then he/she was out of the game no other chance was given to them.
