

## A WINNER IS A DREAMER-GOALCAST ACTIVITY REPORT

The students of Class Xth at The Air Force School, Subroto Park whole heartedly participated in the Poster Making activity “GoalCast” on 2<sup>nd</sup> May with great enthusiasm and vigour. They exhibited their best creative foot forward reflecting the thoughts of todays generation where they see themselves 10 years later having a progressive and open minded attitude towards themselves and towards the world as whole.

Moreover, all the posters reflected a positive change in the thinking of today’s generation where they tried to break the typical stereotype thinking of the society and the prejudice that is attached to many sections of the society. This proves that our young minds are continuously working towards a better India where they themselves are engaged in changing the thinking of people through their goals and aspirations thereby not restricting their actions by the roles given by the society since ages.

Their creativity were full of imaginative minds at work hoping to bring a change in the world by taking tiny steps towards their goal.

We are sure that such positivity in these challenging times will surely bring the brightest ray of hope and happiness for all of us..
