

## SCIENCE DEPARTMENTAL ACTIVITY-CLASS-VII

Science department conducted an activity for Class-VII on the topic-Fibre to Fabric.Students were asked to make a Jingle based on the topic wherein they had to select any one plant or animal fibre of their choice and then write & sing the jingle.

Students elaborated about the processing,features & uses of the fibre in the jingle.They exhibited their scientific knowledge along with creativity while performing the activity.

The conduction of the activity gave students an opportunity to discover their favorite fibre & enhance their knowledge about the concept.They exhibited their multi dimensional skills combined with subject understanding through participation in the activity.

All the students of Class-VII placed their whole hearted effort with immense enthusiasm & full vigour to complete the activity.

Some of the glimpses of the activity are shown below-
