

**“SOMEONE'S SITTING IN THE SHADE TODAY BECAUSE SOMEONE  
PLANTED A TREE A LONG TIME AGO.”**

EVS club of The Air Force School celebrates Van Mahotsav every year with great spirits and enthusiasm and this year also even in the time of lockdown, the students and teachers have not hesitated to acknowledge and thank the mother nature for all that it provides us.

The EVS Club organized various activities in which students participated enthusiastically. Students of class 8<sup>th</sup> wrote self-composed poems and made their videos reciting the same, students of class 7<sup>th</sup> enacted as different plants and animals and shared their feelings before and during the COVID-19 period. Students submitted their videos through online medium to their teachers. Students of class 6<sup>th</sup> planted saplings in their gardens and near their houses. The children shared their pictures with their class teachers and their eyes reflect the happiness and the responsibility they are feeling within. The students also took an oath to plant as many trees as possible and to respect and care for our mother earth.

Even the teachers of the school planted saplings in their gardens to celebrate this day.

Overall the celebration of Van Mahotsav was a success and every student took part in it with great joy and enthusiasm.
