With the perfect water sprinklers and music, one could feel the children's smiles and giggles everywhere. Beautiful candid scenes were caught on the camera as the purest childhood came alive when the little munchkins felt the water droplets. The learning was enhanced with the Monsoon Sensorial set up where the children explored objects used during the rainy season and saw rainy season insects with magnifying glasses. The fun didn't stop here as the children relished hot chocolate after an enjoyable and adventurous 'Rain Dance'.

GRANDPARENTS' DAY

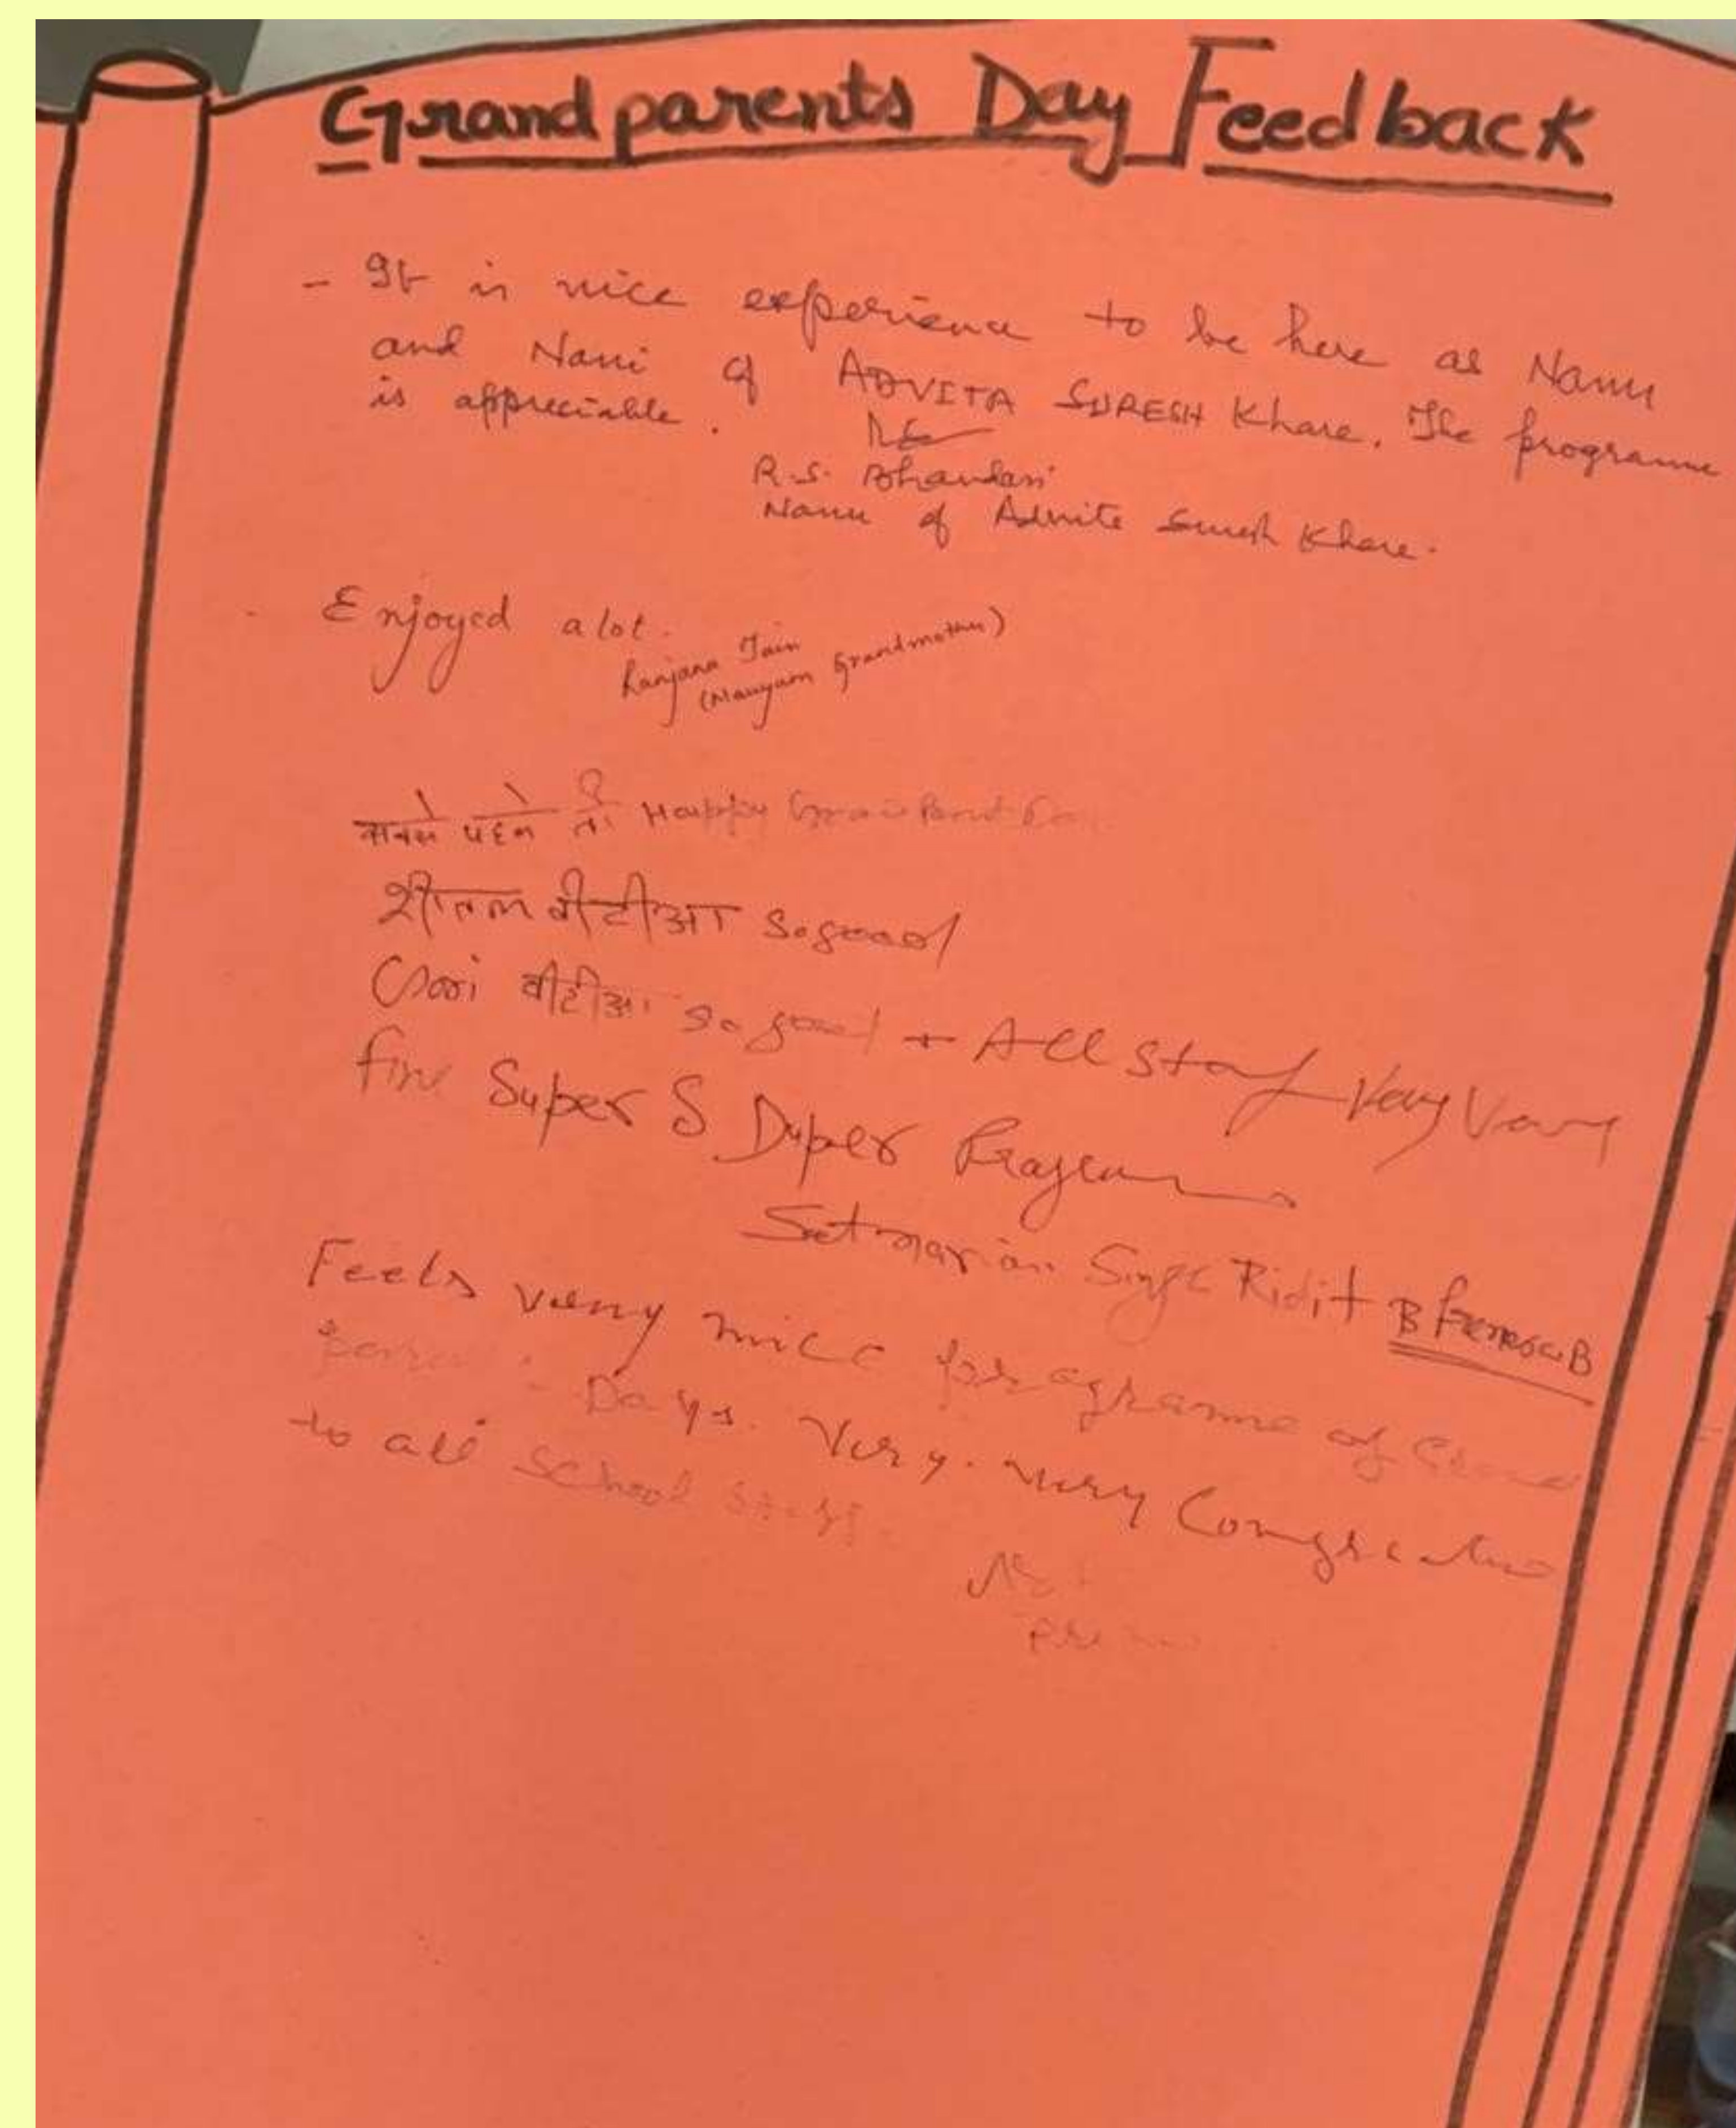

Grandparents hold our tiny hands for just a little while, but our hearts forever. "Grandparents are the family's strong foundation. Through their special love and care, grandparents keep a family close at heart. They are the founders of a loving legacy, the greatest storytellers and the keepers of traditions. Grandparents Day gives us an opportunity to show our respect and gratitude towards them. To honor and to make them feel special, we celebrated Grandparents Day with great enthusiasm on 13th September 2022. The event started with a warm traditional welcome by our tiny tots. My Favourite Transport

Means of transport always fascinate children. The transport toys are always their favourite. We made the best use of this interest and asked the children to prepare a few lines on 'My favourite transport' to foster their public speaking competency. The activity was a grand success as the children spoke very loudly and clear. And the cherry on the top of the cake was the props made by our dear moms.

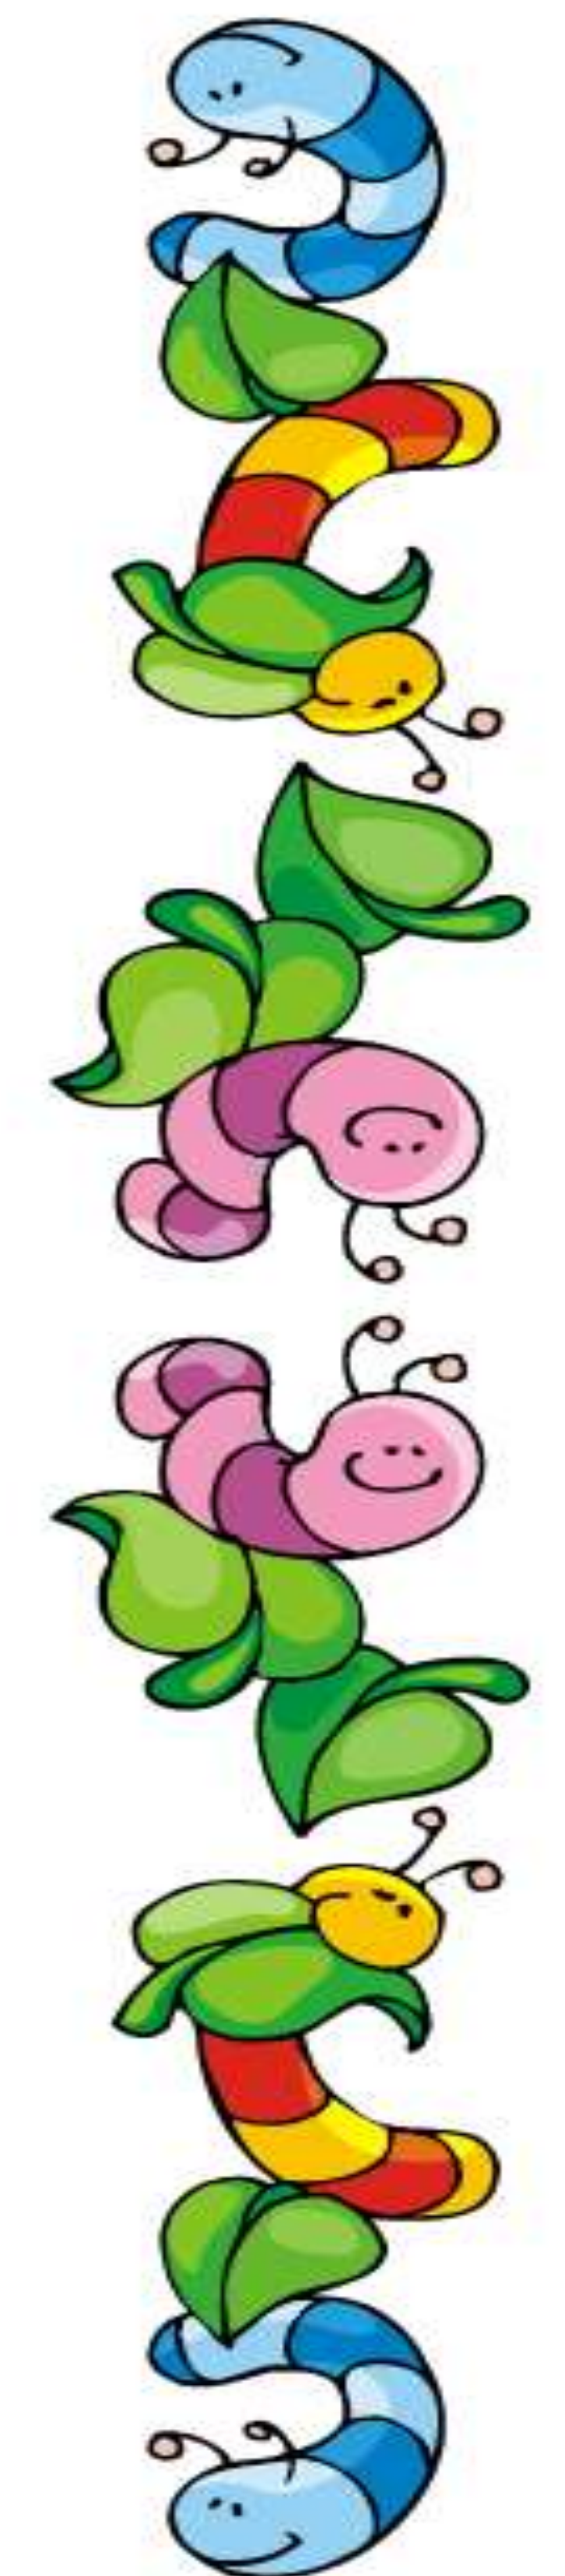

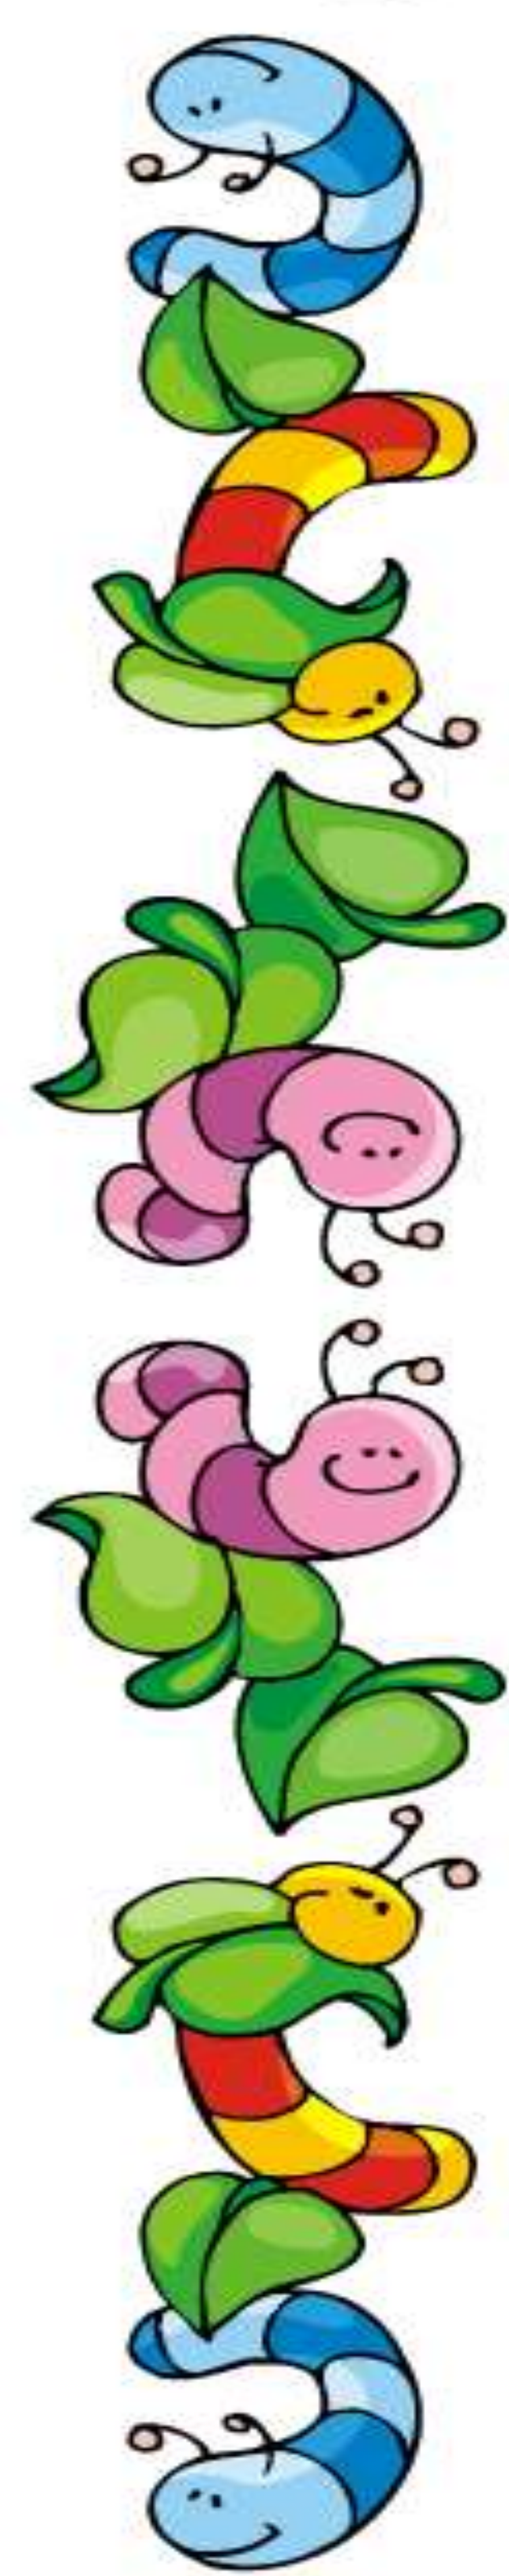

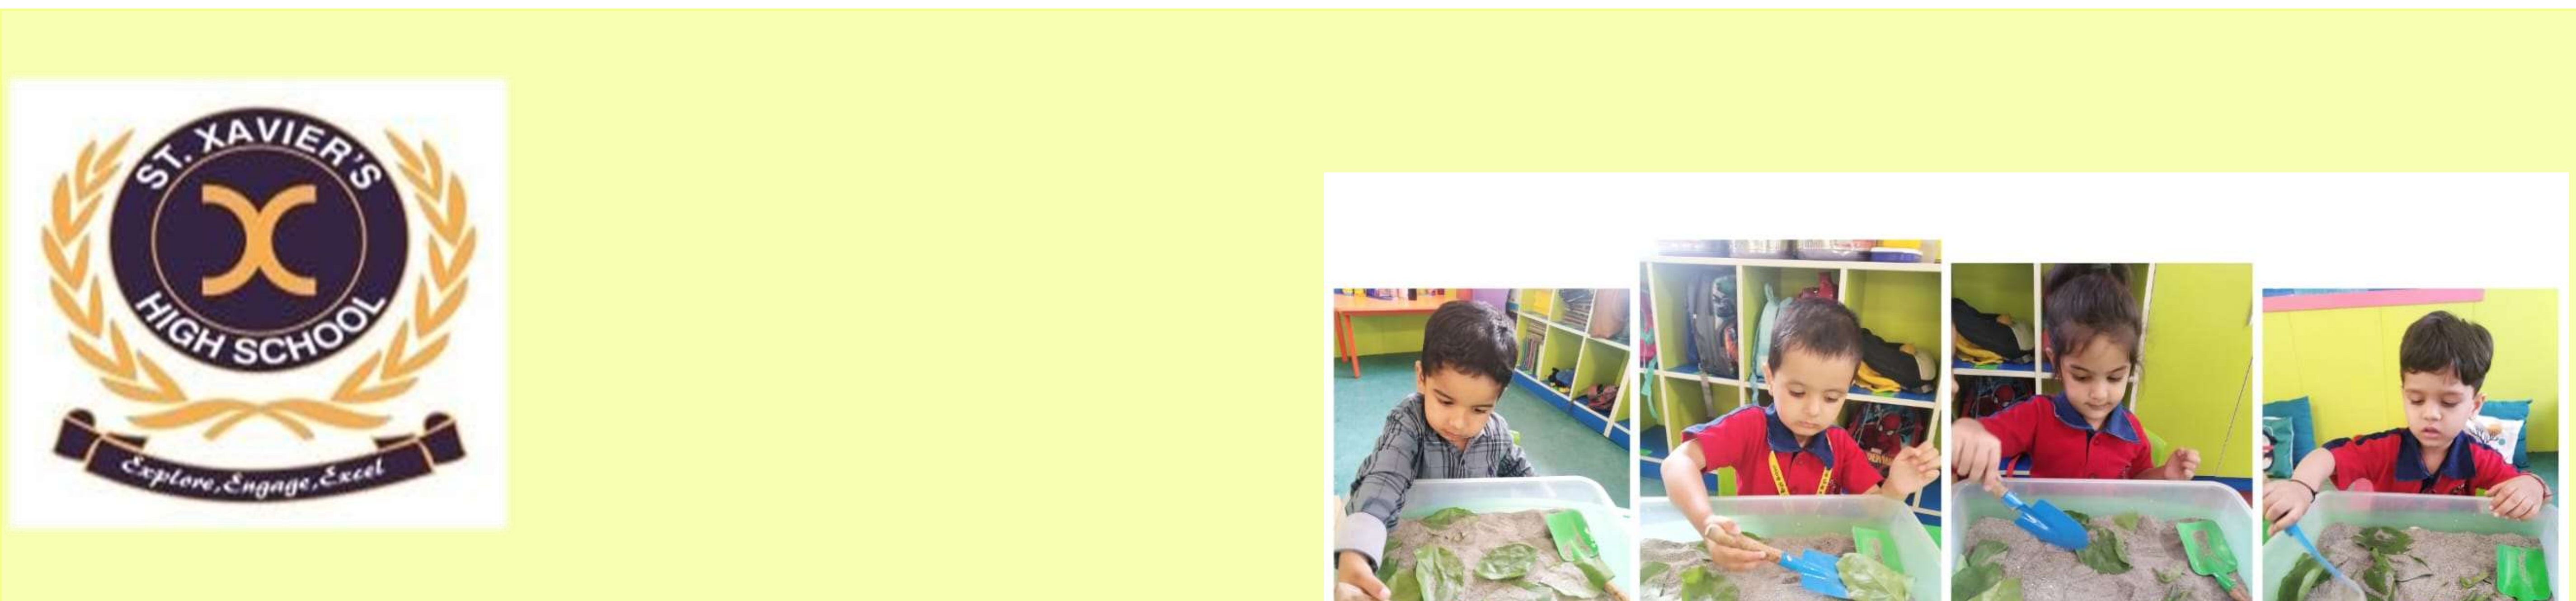

We at Xavier's believe each child has her or his own motivation and talents, which she or he develops at her or his own pace. Our curriculum is based on the theory that children do not have just an intellectual capacity, but have many kinds of intelligences, including musical, interpersonal, spatial-visual and linguistic.
