

SESSION 2021-22
HOLIDAY HOMEWORK
CLASS VII

Dear parents,

It is summer vacation time, a time to relax as well as fruitfully occupy children in various scholastic and co-scholastic areas. Keeping this in mind our teachers have painstakingly designed interesting Projects/Assignments for children to be completed during summer vacation. This would encourage in-depth learning, strengthen concepts and prepare ground for improved academic output. As parents kindly motivate and lend support to your children and ensure that they complete the given work well in time and best of their ability. Your encouragement can actually make a huge difference to the ultimate learning outcome of these projects. We would be happy if parents encourage children work on their own.

Please note the following :

- Make your child read Hindi and English story books and children's Science magazine as much as possible so that each child can contribute to the school magazine in some way or the other
- Encourage them to undertake creative writing both in Hindi and English. You can tell them to write their experiences about the vacation and maintain a daily diary too. Even watching good English movies/plays can be enjoyable experience
- To make them aware of their surroundings, tell them to watch various informative TV Channels like Discovery, National Geographic, History and Animal Planet

- To enhance their creative talent, motivate them to draw/paint, make PPT presentations on any family celebration or any activity/place/concept that interests them

We look forward to your co-operation

HAPPY HOLIDAYS

Vice-Principal

Principal

ENGLISH :

1. Read a famous book ' Robinson Crusoe' by Daniel Dafoe. Write summary of the story in your own words in notebook.

* Define the character of "FRIDAY"

MATH :

CHAPTER 1

Find each of the following products

(i) $3 \times (-8) \times 5$

(ii) $9 \times (-3) \times (-6)$

(iii) $(-2) \times 36 \times (-5)$

Verify the following::

(i) $19 \times (7 + (-3)) = 19 \times 7 + 19 \times (-3)$

(ii) $(-23)[(-5) + (+19)] = (-23) \times (-5) + (-23) \times (+19)$

Divide:

(i) 102 by 17

(ii) -85 by 5

(iii) -161 by -23

(iv) 76 by -19

Find the value of:

$$24 + 15 \div 3.$$

$$36 \div 6 + 3.$$

$$21 - 12 \div 3 \times 2.$$

Simplify:

$$3 - (5 - 6 \div 3)$$

Do all the work in notebook.

SCIENCE :

Experimental Investigation

Take a slice of bread. Sprinkle some water on it and leave it in a moist place for 2-3 days.

Observe white, green patches of thread - like growth on it.
