In fact, from the nymph to the adult stage, the dragonfly has a significant, positive ecological impact. Dragonfly eggs are laid and hatched in or near water, so their lives impact both water and land ecosystems. Once hatched, dragonfly nymphs can breathe underwater which enables them to eat mosquito larvae, other aquatic insects and worms, and even small aquatic vertebrates like tadpoles and small fish and in the air. SECTION A (OBJECTIVE TYPE)

1. Read the passage given below and answer the following questions: (1x4=4)

An efficient, aerobic catalytic system for the transformation of alcohols into carbonyl compounds under mild conditions, copper-based catalyst has been discovered. This copper-based catalytic system utilizes oxygen or air as the ultimate, stoichiometric oxidant, producing water as the only by-product

A wide range of primary, secondary, allylic, and benzylic alcohols can be smoothly oxidized to the corresponding aldehydes or ketones in good to excellent yields. Air can be conveniently used instead of oxygen without affecting the efficiency of the process. However, the use of air requires slightly longer reaction times.

This process is not only economically viable and applicable to large-scale reactions, but it is also environmentally friendly.

(Reference: Ohkuma, T., Ooka, H., Ikariya, T., & Noyori, R. (1995). Preferential hydrogenation of aldehydes and ketones. *Journal of the American Chemical Society*, 117(41), 10417-10418.)

Read the passage given below and answer the following questions:

(1x4=4)

The amount of moisture that leather adsorbs or loses is determined by temperature, relative humidity, degree of porosity, and the size of the pores. Moisture has great practical significance because its amount affects the durability of leather, and in articles such as shoes, gloves and other garments, the comfort of the wearer. High moisture content accelerates deterioration and promotes

mildew action. On the other hand, a minimum amount of moisture is required to keep leather properly lubricated and thus prevent cracking.

The study indicates that adsorption of moisture by leather is a multi-molecular process and is accompanied by low enthalpies of adsorption. Further at 75-percent relative humidity, the adsorption is a function of surface area alone.

Hide is tanned to harden leather. This process of tanning occurs due to mutual coagulation of positively charged hide with negatively charged tanning material. Untanned hide and chrome-tanned leathers have the largest surface areas. The leathers tanned with vegetable tanning materials have smaller surface areas since they are composed of less hide substance and the capillaries are reduced to smaller diameters, in some cases probably completely filled by tanning materials. The result of the study indicated that untanned hide and chrome-tanned leather adsorb the most water vapour.

(Source: Kanagy, J. R. (1947). Adsorption of water vapor by untanned hide and various leathers at 100 F. *Journal of Research of the National Bureau of Standards*, 38(1), 119-128.)

-
- (i) Assertion: Vegetable tanned leather cannot adsorb a large amount of moisture.
Reason: Porous materials have higher surface area.
 - (ii) Assertion: Animal hide soaked in tannin results in hardening of leather.
Reason: Tanning occurs due to mutual coagulation.
 - (iii) Assertion: Adsorption of moisture by leather is physisorption.
Reason: It is a multimolecular process and is accompanied by low enthalpies of adsorption
 - (iv) Assertion: Leathers tanned with vegetable tanning materials have smaller surface areas
Reason: The capillaries present in leather are reduced to smaller diameters

OR

Farmers borrow not only to meet their investment needs but also to satisfy their personal needs. Uncertainty of income caused by factors likes crop failure caused by irregular rainfall, reduction in ground water table, locust/other pest attack etc. These reasons push them into the clutches of the private money lenders, who charge exorbitant rates of interest which add to their miseries.</p> <p>Various governments in India, at different times for different reasons, introduced debt relief/waiver schemes. These schemes are used by governments as a quick means to extricate farmers from their indebtedness, helping to restore their capacity to invest and produce, in short to lessen the miseries of the farmers across India. The costs and benefits of such debt relief schemes are, however, a widely debated topic among economists.</p> <p>Some economists argue that such schemes are extremely beneficial to the poor and marginalised farmers while others argue that these schemes add to the fiscal burden of the government, others believe that these schemes may develop the expectation of repeated bailouts among farmers which may spoil the credit culture among farmers.</p>

SAMPLE QUESTION PAPER (2020-21)
ENGLISH – Core
CLASS-XII (Rationalised syllabus)

Part A (40 Marks)

READING

(20 marks)

1. Read the passage given below.

(1x10 = 10)

1. “Who doesn't know how to cook rice? Cooking rice hardly takes time.” said my father. So, I challenged myself. I switched from news to YouTube and typed, “How to cook rice?” I took one and a half cups of rice. Since I didn't have access to a rice cooker, I put the rice in a big pot. Firstly, the rice has to be washed to get rid of dust and starch. I thought I won't be able to drain the rice and that it will fall out of the pot. I observed the chef as I swirled the rice around and used my dexterous hands to drain it, not once, not twice, but three times. I looked down at the sink and saw less than 50 grains that made their way out of the pot. Suffice to say, I was up to the mark.
2. The video stated that the key to perfect rice is equal amounts of rice and water. I have heard that professionals don't need to measure everything; they just know what the right amount is. But as this was my first time in the kitchen, I decided to experiment by not measuring the water needed for boiling the rice. I wanted the rice to be firm when bitten, just like pasta. I don't enjoy the texture of mushy rice. It has to have that chutzpah; it has to resist my biting power just for a bit before disintegrating.
3. After what seemed like 10 minutes, all the water disappeared. I went in to give it a good stir. To my surprise, some of the rice got stuck to the pot. I tried to scrape it off but to no avail. At the same time, there was a burning smell coming from it. I quickly turned the stove off. “What have you done to the kitchen?” shouted Mother, while coming towards the kitchen. I managed to ward her off.

4. Finally, when the time came to taste my creation, I was surprised! It wasn't bad at all. The rice had the desired consistency. Sure, a little more salt would've been better, but I just added that while eating. The experience was fairly rewarding and memorable. It taught me a new sense of respect for those who cook food on a regular basis at home or engage in gourmet creations professionally.

प्रश्न 1.	<p>निम्नलिखित में से किसी एक गद्यांश को ध्यानपूर्वक पढ़िए:-</p> <p>दुनिया शायद अभी तक के सबसे बड़े संकट से जूझ रही है। मौजूदा दौर की महामारी ने हर किसी के जीवन में हलचल मचा दी है। इस पर महामारी ने जीवन की सहजता को पूरी तरह बाधित कर दिया है। भारत में इतनी अधिक आबादी है कि इसमें किसी नियम कायदे को पूरी तरह से अमल में लाना अपने आप में एक बड़ी चुनौती है। इसमें महामारी के संक्रमण को रोकने के मकसद से पूर्णबंदी लागू की गई और इसे कमोबेश कामयाबी के साथ अमल में भी लाया गया। लेकिन यह सच है कि जिस महामारी से हम जूझ रहे हैं, उससे लड़ने में मुख्य रूप से हमारे शरीर की प्रतिरोधक क्षमता की ही बड़ी भूमिका है। लेकिन असली चिंता बच्चों और बुजुर्गों की हो आती है।</p> <p>इस मामले में ज्यादातर नागरिकों ने जागरूकता और सहजबोध की वजह से जरूरी सावधानी बरती है। लेकिन इसके समानान्तर दूसरी कई समस्याएँ खड़ी हुई हैं। मसलन आर्थिक गतिविधियाँ जिस बुरी तरह प्रभावित हुई हैं, उसने बहुत सारे लोगों के सामने संकट और ऊहापोह की स्थिति पैदा कर दी है। एक तरफ नौकरी और उसकी तनख्वाह पर निर्भर लोगों की लाचारी यह है कि उनके सामने यह आश्वासन था कि नौकरी से नहीं निकाला जाएगा, वेतन नहीं रोका जाएगा, वहीं उनके साथ हुआ उल्टा। नौकरी गई, कई जगहों पर तनख्वाह नहीं मिली या कटौती की गई और किराए के घर तक छोड़ने की नौवत आ गई। इस महामारी का दूसरा असर शिक्षा जगत पर पड़ा है, उसका तार्किक समाधान कैसे होगा, यह लोगों के लिए समझना मुश्किल हो रहा है। खासतौर पर स्कूली शिक्षा पूरी तरह से बाधित होती दिख रही है। यों इसमें किए गए वैकल्पिक इंतज़ामों की वजह से स्कूल भले बंद हों, लेकिन शिक्षा को जारी रखने की कोशिश की गयी है। स्कूल बंद होने पर बहुत सारे शिक्षकों को वेतन की चिंता प्राथमिक नहीं थी, बच्चों के भविष्य की चिंता उन्हें सता रही है। हालांकि एक खासी तादाद उन बच्चों की है, जो लैपटॉप या स्मार्ट फोन के साथ जीते हैं, लेकिन दूसरी ओर बहुत सारे शिक्षक ऐसे भी हैं, जिन्हें कम्प्यूटर चलाना नहीं आता। उन सबके सामने चुनौती है ऑनलाइन कक्षाएँ लेने की। सबने हार नहीं मानी और तकनीक को खुले दिल से सीखा। इस तरह फिलहाल जो सीमा है, उसमें पढ़ाई-लिखाई को जारी रखने की पूरी कोशिश की जा रही है। (जनसत्ता से साभार)</p>	10x1 =10

	<p>गद्यांश को ध्यानपूर्वक पढ़िए:-</p> <p>एकांत ढूँढने के कई सकारात्मक कारण हैं। एकांत की चाह किसी घायल मन की आह भर नहीं, जो जीवन के काँटों से बिंध कर घायल हो चुका है, एकांत सिर्फ उसके लिए शरण मात्र नहीं। यह उस इंसान की ख्वाइश भर नहीं, जिसे इस संसार में 'फेंक दिया गया' हो और वह फेंक दिये जाने की स्थिति से भयभीत होकर एकांत ढूँढ रहा हो। हम जो एकांत में होते हैं, वही वास्तव में होते हैं। एकांत हमारी चेतना की अंतर्वस्तु को पूरी तरह उघाड़ कर रख देता है। अंग्रेजी का एक शब्द है- 'आइसोनोफिलिया'। इसका अर्थ है अकेलेपन, एकांत से गहरा प्रेम। पर इस शब्द को गौर से समझें तो इसमें अलगाव की एक परछाई भी दिखती है। एकांत प्रेमी हमेशा ही अलगाव की अभेद्य दीवारों के पीछे छिपना चाह रहा हो, यह जरूरी नहीं। एकांत की अपनी एक विशेष सुरभि है और जो भीड़ के अशिष्ट प्रपंचों में फंस चुका हो, ऐसा मन कभी इसका सौंदर्य नहीं देख सकता। एकांत और अकेलेपन में थोड़ा फर्क समझना जरूरी है। एकांतजीवी में कोई दोष या मनोमालिन्य नहीं होता। वह किसी व्यक्ति या परिस्थिति से तंग आकर एकांत की शरण में नहीं जाता। न ही आतातायी नियति के विषैले बाणों से घायल होकर वह एकांत की खोज करता है। अंग्रेजी कवि लॉर्ड बायरन ऐसे एकांत की बात करते हैं। वे कहते हैं कि ऐसा नहीं कि वे इंसान से कम प्रेम करते हैं, बस प्रकृति से ज्यादा प्रेम करते हैं। बुद्ध अपने शिष्यों से कहते हैं कि वे जंगल में विचरण करते हुए गैंडे की सींग की तरह अकेले रहें। वे कहते हैं- 'प्रत्येक जीव जन्तु के प्रति हिंसा का त्याग करते हुए, किसी की भी हानि की कामना न करते हुए, अकेले चलो-फिरो, वैसे ही जैसे किसी गैंडे का सींग।' हक्सले 'एकांत के धर्म' या 'रिलीजन ऑफ सोलीट्यूड' की बात करते हैं। वे कहते हैं जो मन जितना ही अधिक शक्तिशाली और मौलिक होगा, एकांत के धर्म की तरफ उसका उतना ही अधिक झुकाव होगा; धर्म के क्षेत्र में एकांत, अंधविश्वासों, मतों और धर्मांधता के शोर से दूर ले जाने वाला होता है। इसके अलावा एकांत धर्म और विज्ञान के क्षेत्र में नई अंतर्दृष्टियों को भी जन्म देता है। ज्यां पॉल सार्त्र इस बारे में बड़ी ही खूबसूरत बात कहते हैं। उनका कहना है- 'ईश्वर एक अनुपस्थिति है। ईश्वर है इंसान का एकांत।</p> <p>क्या एकांत लोग इसलिए पसंद करते हैं कि वे किसी को मित्र बनाने में असमर्थ हैं? क्या वे सामाजिक होने की अपनी असमर्थता को छिपाने के लिए एकांत को महिमामंडित करते हैं? वास्तव में एकांत एक दुधारी तलवार की तरह है। लोग क्या कहेंगे इसका डर भी हमें अक्सर एकांत में रहने से रोकता है। यह बड़ी अजीब बात है, क्योंकि जब आप वास्तव में अपने साथ या अकेले होते हैं, तभी इस दुनिया और कुदरत के साथ अपने गहरे संबंध का अहसास होता है। इस संसार को और अधिक गहराई और अधिक समानुभूति के साथ प्रेम करके ही हम अपने दुखदाई अकेलेपन से बाहर हो सकते हैं। (जनसत्ता से साभार)</p>

Question For Visually Impaired candidates only: In lieu of Question number 18.

Read the following text and answer any three of the following questions:

Apart from wives, numerous male and female slaves populated the Mughal household. The tasks they performed varied from the most mundane to those requiring skill, tact and intelligence. Slave eunuchs (khwajasara) moved between the external and internal life of the household as guards, servants, and also as agents for women dabbling in commerce.

After Nur Jahan, Mughal queens and princesses began to control significant financial resources. Shah Jahan's daughters Jahanara and Roshanara enjoyed an annual income often equal to that of

high imperial mansabdars. Jahanara, in addition, received revenues from the port city of Surat, which was a lucrative centre of overseas trade.

Control over resources enabled important women of the Mughal household to commission buildings and gardens. Jahanara participated in many architectural projects of Shah Jahan's new capital, Shahjahanabad (Delhi). Among these was an imposing double-storeyed caravanserai with a courtyard and garden. The bazaar of Chandni Chowk, the throbbing centre of Shahjahanabad, was designed by Jahanara.

a) "Mughal Empire was very prosperous during the reign of Shah Jahan." Which of the following statement justifies it?

- i) Nur Jahan began to have control over financial resources
- ii) Jahanara and Roshanara had a very high annual income.
- iii) Roshanara spent a large part of her income in building of a caravanserai.
- iv) Roshanara made a huge profit from the lucrative overseas trade .

Referring to the condition of zamindars and the auction of lands, the Fifth Report stated: The revenue was not realised with punctuality, and lands to a considerable extent were periodically exposed to sale by auction. In the native year 1203, corresponding with 1796-97, the land advertised for sale comprehended a jumma or assessment of sicca rupees 28,70,061, the extent of land actually sold bore a jumma or assessment of 14,18,756, and the amount of purchase money sicca rupees 17,90,416. In 1204, corresponding with 1797-98, the land advertised was for sicca rupees 26,66,191, the quantity sold was for sicca rupees 22,74,076, and the purchase money sicca rupees 21,47,580. Among the defaulters were some of the oldest families of the country. Such were the rajahs of Nuddea, Rajeshaye, Bishenpore (all districts of Bengal), ... and others, the dismemberment of whose estates at the end of each succeeding year, threatened them with poverty and ruin, and in some instances presented difficulties to the revenue officers, in their efforts to preserve undiminished the amount of public assessment.

27	<p>Read the following source carefully and answer the questions that follow:</p> <p style="text-align: center;">The most ancient system yet discovered</p> <p>About the drains, Mackay noted: "It is certainly the most complete ancient system as yet discovered." Every house was connected to the street drains. The main channels were made of bricks set in mortar and were covered with loose bricks that could be removed for cleaning. In some cases, limestone was used for the covers. House drains first emptied into a sump or cesspit into which solid matter settled while wastewater flowed out into the street drains. Very long drainage channels were provided at intervals with sumps for cleaning. It is a wonder of archaeology that "little heaps of material, mostly sand, have frequently been found lying alongside drainage channels, which shows ... that the debris was not always carted away when the drain was cleared".</p> <p>FROM ERNEST MACKAY, Early Indus Civilisation, 1948.</p> <p>27.1) Enumerate one reason, why, Mackay states that" it is certainly the most complete ancient systems yet discovered"</p> <p>27.2) Define the term' grid pattern' of the Lower town and state one of its features.</p> <p>27.3)Describe the features of the domestic drainage system.</p>	<p>1 + 2 + 2 = 5</p>

I was committed to this idea, that every day in every station I would perform two cycles of optional prayer ...</p> <p>For several days ... I did not sleep on a leopard skin at night, I did not extend my feet in the direction of the blessed sanctuary of the revered saving master, and I did not turn my back towards him. I passed the days beneath the trees.</p> <p>On Thursday, the fourth of the blessed month of Ramzan, I attained the happiness of pilgrimage to the illuminated and the perfumed tomb ... The era of Liberalisation, Privatisation and Globalisation from the early 1990's , is attributed to the emergence of a competitive market society encompassing all important sectors of economy, society and polity thus paving the way for the "Third Democratic Upsurge". The Democratic Upsurge represents a competitive electoral market which is based not on the principle of survival of the fittest but rather the survival of the ablest. It underlines three shifts in India's electoral market: from State to Market, from Government to Governance, from State as Controller to State as Facilitator. Moreover, the Third Democratic Upsurge seeks to promote the participation of the youth who constitute a significant chunk of Indian society as the real game changers in view of their increasing electoral preference for both development and governance in India's contemporary democratic politics.
