Dear Parents,  
Warm Greetings!

Long summer break is the most enviable part of school life! It provides time for rest and leisure. Children can just laze around, unwind, eat, play and make merry! Vacations are of course a time to reinvigorate and revive. In the prevailing situation, where we are confined to our homes, we wish you all health and safety. These are difficult days but if used constructively, through quality time with our children, reading, listening to music and meaningful conversations can be beneficial for the overall growth of the child and for us as well.

The Holiday Homework for Nursery has been especially designed to strengthen the concepts taken up in ongoing themes. Care has been taken to plan activities that would help to build senses, enrich vocabulary, enhance creativity and thinking skills as well as develop appreciation for music. Kindly encourage the spirit of scientific enquiry and foster awareness about nature. Along with all this, we have included personality development activities that aim at building values, improving self esteem and memory.
