SUMMER TIME

SUMMER BREAK!!

Dear Parents,
The summer break is finally here, yet another opportunity for our little ones to do something beyond the mundane.

As we all are seeing that our little warriors are fighting against Corona more courageously than us,. So let's try to make each day worthwhile for them. This is a time that you can make them-

- **Read storybooks**
- **Involve them in daily chores**
 - **Making up their own bed.**
 - **Hanging & folding clothes**
 - **Laying the table.**
 - **Helping their elders.**

These things will make them responsible and teach them true values. Read, play, sing and have lots of fun with them as they are our lifelines and you are their role models.

EVS

Collect some dead leaves, dried flowers and vegetables waste from your house. Take a pot and put these things in it. Then, put two layers of soil. Add some water in this pot once 3-4 days. After a month, the things will rot to produce a smelly material called compost. This can be added to the soil in the pots with plants or in your home garden. Adding compost to the soil is good for plants. Click the picture of the compost and write your observation in MS Word as shown.
