TREE PLANTATION DRIVE 2018-19

Being the member of Eco Club, the students and staff of Green View Public School, Dwarka Vihar, Najafgarh, planted indigenous trees in the school premises in the presence of Chairman/Manager and Principal of the school. Various trees like Mango, Peepal, Neem and many more were planted as a part of the "Tree plantation drive". The students pledged to plant more and more trees in their neighbourhood. This is the way to reduce pollution and make life healthy as well. It **decreases the content of** carbon dioxide and increases the content of oxygen in the **atmosphere**. The Principal presided over all the activities and instructed the students to protect their ailing planet.

Important Message by : "Green View Public School"

By the next 10 years, the temperature of Earth will raise drastically. Himalayan glaciers are melting at a rapid rate, so all of us should stand together to fight global warming. The Tree Plantation drive is the most valuable part to save our environment. We request every individual to spare a few minutes to keep their surroundings clean and healthy. Every human being has the responsibility to take care of the environment and to keep it pollution free. To reduce pollution in the air we must plant more and more trees.

"Keep the environment clean and healthy, you will be awarded by nature."

1. Plant trees near your homes.
2. Do not use plastic bags.
3. Do not waste water and electricity.
4. Use public transport .
5. Participate in 'Save environment drive.'

Wish you all the best :

Principal / Manager
