

FOR PROGRESSIVE TEACHERS

G D GOENKA UNIVERSITY OFFERS 'POST GRADUATE DIPLOMA IN EDUCATION MANAGEMENT (MONTESSORI SYSTEM)'

This programme brings to India for the first time Management of the internationally acclaimed Montessori Method in a progressive curriculum.

Post Graduate Diploma in Education Management (Montessori System) is absolutely unique and innovative. It is based on what teachers practically need to know and implement in a classroom.

The Programme fulfills the space and need for evolving teaching techniques correlating to different learning styles of children of the present times. It has been conceived as a bridge between theoretical knowledge and its translation into class room implementation.

The teachers' management curriculum brings a new shift in awareness and opens the vision of the teachers to possibilities as it incorporates a seamless blend of the completeness of the Montessori Method, the stimulation, exploration and independence of International programmes and the cultural, reflective and spiritual blend of our culture.

Career Avenues

Montessori teachers are highly sought after and there is always a dearth of them. They are absorbed instantly, not only as teachers but as Coordinators, Academic Supervisors, Trainers and Heads. The opportunities are immediate and immense. Also, as the course is internationally accepted, it provides great opportunities to work abroad, anywhere in the world.

Programme: POST GRADUATE DIPLOMA IN EDUCATION MANAGEMENT (MONTESSORI SYSTEM)

Duration: 11 Months

Programme Outcomes

- Train teachers as they are meant to be.
- Gives educators to the world who are conscious of their role and responsibility as a guide for the future generation.
- Teachers understand that every child is a challenge. It is the adult in the environment who has to find a way to reach out to the intellect of the child.
- They have ample knowledge of learners' types and are able to modify their lessons accordingly.

- They are able to analyze each subject to its simplest form so that learners can absorb it spontaneously.
- They are aware of real achievable targets to be set for each stage of the child's development.
- They know how to draw out the best from the child by correct motivation and pedagogical strategies.
- They can enhance the overall development of the child in all its aspects.
- They have ample knowledge and practical training through the course to be able to design and prepare a nurturing and purposeful environment for the child.
- The know-how to engage a child in purposeful developmental activities in a manner which the child perceives as engaging playtime.
- To bring a tangible difference to every child's learning and development with conscious effort and informed awareness.
